EXPLANATION.

When a number, unaccompanied by letters, follows the name of an animal, it refers to the registry of that animal in the Herd Register of the American Jersey Cattle Club.

When a number preceded and followed by letters is attached to the name of an animal, it refers to the registry of that animal in the Herd Book on the Island of Jersey. The significance of the accompanying letters is as follows: **P**, stands for Pedigree Stock; **F**, for Foundation Stock; **C**, indicates a Commended animal; and **H. C.**, one that is Highly Commended.

TERMS AND CONDITIONS OF SALE.

Terms Cash. Twenty-five per cent. to be paid in cash immediately after the animal is sold, OR THE SALE MAY BE DECLARED VOID, at option of the seller. The balance of the purchase money to be paid in cash on the day of sale, and before the animal is delivered; and, if the balance is not paid or satisfactorily secured within said time, the twenty-five per cent. will be forfeited as an agreed liquidation for damages, and the sale to be void.

Warranties. When an animal is warranted, the fact and particulars of the warranty will be proclaimed from the auction stand, otherwise animals are sold with all faults and defects, and nothing warranted except right and title to the property.

Pedigrees. All the cattle are entered, or expected to be entered, before the date of sale, in the Herd Register of the American Jersey Cattle Club, and application for transfer will be furnished with each animal. Should exceptions occur they will be announced at the time of sale, unless the catalogue indicates them by the omission of the registry number. Beyond the fact that the pedigrees have been accepted for registry, and that care has been exercised to have them correct to the best of the ability of the seller, no representations are made regarding them and nothing warranted.

Bids. Where there are two or more claimants for a deciding bid, and the auctioneer is in doubt whose bid was heard the question may be settled by putting up the animal for advance bids. After the first bid is made, no advance of less than \$10 each will be taken, except on young calves, when a special limit will be announced.

Delivery and Keeping. Buyers must procure from our bookkeeper, for each animal purchased, a separate order on the seller, and orders so obtained should be placed in the hands of the person or agent who is to remove the animals. Buyers assume all expenses and risk on animals after they are struck down. No charge for keeping will be made on animals removed Wednesday, June 2nd.

Bidders Not Present. Bidders at a distance, who write or telegraph us instructions to buy for their account, ought to give reference that the transactions may be promptly closed and animals shipped. Persons unable to attend the sale may send bids to Messrs. George E. Peer, George W. Sisson, Harry Jenkins and W. R. Spann, or to Mr. L. F. Herrick, our sale manager, who will place the bids in the hands of thoroughly reliable people.

L. F. HERRICK, Manager.

CREDIT.

While the terms of Sale are CASH, special credits of three to six months will be given to responsible parties, by the same giving bankable notes with approved security, bearing six per cent. interest from date. So that no detention may take place at day of sale, parties are respectfully requested to communicate with us before day of sale. Where notes are accepted for certain animals, the transfers will be held until the notes are paid.

FERN BLOOD IN RECENT TESTS.

Past records made by the Golden Fern's Lad family and connections have been published time and again. They are a part of Jersey history; they have been the archives on which many a great bull's reputation is established. Golden Lad, his double grandsire, won first over the Island as far back as 1890; his sons won first over the Island almost every year thereafter until 1900. His daughters and later descendants, that have won in the butter tests and show ring, make an unwieldy list, inexpedient for newspaper space—a summary even would appear fabulous. We know this. We also know that Golden Fern's Lad, in the same direction, has "gone his grandsire one better." There are more winners, both dairy performers and high scoring individuals, close up to Golden Fern's Lad than even old Golden Lad would dare boast.

But it is not this earlier history, nor yet alone the prize ring, that keeps alive the unquestioned popularity of bulls and cows descended from Golden Fern's Lad. There has not been a show or butter test on the Island in a dozen years that has failed to recognize the Golden Fern's Lad influence as a predominant factor in the blood of the winners. This family quality demonstrated itself not only on the Island, but English exhibitions and American shows have felt the effect of Golden Fern's Lad's prepotency to a degree which has caused the world to "lift its hat," to what Mr. Cooper is moved to christen "The Old Plum Tree."

Without a doubt the Linden Grove catalog this year will recite as much of this history as space will permit. With much of it, Jersey people are already familiar through the reports of shows and tests, the newspaper articles, and records published in catalogs. These are necessarily abridged, but their persistent appearance has established the fact that Golden Fern's Lad's prepotency is a most potent power in the breeding of Jersey cattle. It is living to-day as it was lustily born; and, combined with kindred Island families, in individuals remote from the fountainhead, is creating bulls and cows with the same vitality, the same pleasing type, the same power for milk and butter production, and, we daresay, the same prepotency, that has stamped the nearer descendants of Golden Fern's Lad.

A reader who has less time than the writer, to keep in touch with the Jersey situation, might be moved to ask: Is the dairy ability of the Fern family as strong now as it has been? This can be best answered by data furnished in official reports of public butter tests on the Island in 1907 and 1908. The tests were held in May and October of each year. Golden Fern's Lad was born in May 1901; he was exported to England in November 1898, and the English law governing the Island prohibited the return of the bull or his subsequent progeny. *Before he was five years old* he had sired all of the representatives he ever possessed on the Island. It is with the seventh and eight year after his departure that this writing treats.

In the May 1908 test, his daughter, Molly Bawn 7876 (only daughter entered), then in her eleventh year, won Certificate of Merit, producing 1 lb. 13 1-2 oz. of churned butter in 24 hours, when 119 days in milk. Her daughter, Molly Bawn 2d, won Silver Medal in the October test—mentioned in connection with her sire, Eminent (son of Golden Fern's Lad). What some of his granddaughters and more remote descendants did in 1907 and 1908 butter tests is recited further on. The record will touch closely a half-dozen or more bulls that are catalogued in Mr. Cooper's 1909 sale, either as the sires of animals in the auction or themselves to be sold; and it will give a reason why these cattle should be just as profitable, just as precocious and powerful, and just as valuable, as Golden Fern's Lad in some cases having a greater money appraisalment than "the Old Plum Tree" fetched.

It may be called "borrowed glory," but we have been unable to separate the distinction accorded Golden Fern's Lad from that to the credit of Eminent, and vice versa. What the head of the family is responsible for, is shared by his descendants; and the performances of those descendants furnish an indisputable asset, not alone for their illustrious ancestor, but for each of their individual connection in family line.

To indicate the scope of this "syndicate" of bulls in the Cooper catalog, let us epitomize the relationship: Golden Fern's Lad is sire of Eminent and Golden Jolly. Eminent is grandsire of Lucy's Champion (on dam's side), grandsire of Raleigh's Fairy Boy; half brother to Flying Fox (sire of Oxford Lad, who in turn is sire of Lucy's Champion, Royal Majesty and Sultana's Oxford Lad); half brother to

Golden Sultana, dam of Sultana's Oxford Lad; and half brother to Golden Jolly, sire of Viola's Golden Jolly. The relationship of Golden Jolly is of course similarly defined, and a glance at the pedigrees on almost any page will indicate how mutually the "Interests" are combined.

Eminent, Golden Fern's Lad's most distinguished son, is the sire of Molly Bawn 2d, winner of first prize and Silver Medal in October 1908 test, class over five years—yield 1 lb. 14 1-4 oz., 150 days in milk. She is 50 per cent. Golden Fern's Lad, her dam being a daughter of Golden Fern's Lad and also a winner in public butter test 1908. Eminent is also sire of Silver Gate, winner of Certificate of Merit in May 1908 test—yield 1 lb. 10 1-2 oz., when 178 days in milk. Eminent, who is owned by Mr. A. M. Bowman at Salem, Va., and who, we are creditably informed, was sold to Bowman Farms at a considerable advance over \$10,000 by Mr. George E. Peer (who had bought him from Mr. Cooper at that figure), is also the sire of Mr. Frank W. Hart's noted bull, Raleigh, who has 17 tested daughters. Raleigh sired Mabel's Raleigh, and Raleigh's Fairy Boy, a "bright light" in this year's Linden Grove sale.

Mabel's Raleigh had a daughter—Florence Belle 2d, 13015—in last October's butter test on the Island. Though only a two-year-old, and six months after calving, she made 1 lb. 7 oz., butter in 24 hours, winning Certificate of Merit. He was bought on the Island by Mr. Cooper and should have been imported, but died before shipment. He was less than four years old when purchased. He is the sire of Mr. C. I. Hudson's herd bull, Fairy Glen's Raleigh, whose dam, Fairy Glen, was also dam of Raleigh's Fairy Boy. Both of these bulls and their dam have won first prize over Jersey. Fairy Glen was by Orlando, whose sire (Golden Lad 2d) was a grandson, and out of the dam, of Golden Lad, double grandsire of Golden Fern's Lad.

Oxford Lad, grandson of Golden Fern's Lad, sire of Stockwell, Royal Majesty, Lucy's Champion, Sultana's Oxford Lad, etc.; son of Flying Fox and Oxford Lass; had eight daughters in the honor list of the May 1908 test, two of which also were in the October test. Following are his daughters in the May test:

Gamboge's Pride 7th 10517, Certificate of Merit and Parish prize—yield 1 lb. 14 1-4 oz., 154 days in milk.

Cynthia 4th 10713, Certificate of Merit and Parish prize—1 lb. 14 1-4 oz., 139 days in milk.

Crocus 5th 10741, Certificate of Merit—2 lbs. 3-4 oz., 114 days in milk.

Oxford Fancy 10794, Certificate of Merit—2 lbs. 4 1-4 oz. butter, 39 lbs. 12 oz. milk; 77 days in milk. (In the October test—Certificate of Merit, 1 lb. 8 oz., 225 days in milk.)

Dulcet's Belle 12285 (three-year-old), Certificate of Merit—1 lb. 15 1-2 oz., 31 days in milk. (In the October test—Certificate of Merit, 1 lb. 9 oz., 179 days in milk.)

Gamboge's Pride 8th 12039, Certificate of Merit—1 lb. 14 oz., 138 days in milk.

Gamboge 7th 11111, Certificate of Merit—2 lbs. 2 1-4 oz., 91 days in milk.

Oxford Triumph 12120, Certificate of Merit—1 lb. 14 oz., 107 days in milk.

Oxford Uua 11402, Certificate of Merit—1 lb. 9 1-2 oz., 133 days in milk.

Oxford Triumph is not only a daughter of Oxford Lad, but she is out of a daughter of his dam, Oxford Lass, viz.: Oxford Ever, who had another daughter in the May 1908 test—Agatha's Oxford Lass 11386, winner Certificate of Merit—yield 1 lb. 10 oz., 97 days in milk. It is manifest that the blood of Oxford Lass, mixed with that of Golden Fern's Lad, reproduces itself even through several generations. That its forte is not only butter production may be seen in the show yard records of Lucy's Champion and Royal Majesty. The former, owned by Mr. H. V. Prentice, Worcester, Mass., was too young a bull to have daughters in the May 1908 test; however, he made a startling show last Fall, before being acclimated, winning championship of the New York State, Brockton and New England fairs. In 1905 he had won Reserve over Jersey in yearling class. He has two crosses of Golden Fern's Lad, his dam being Eminent's Lucy Belle, a splendid daughter of Eminent.

Royal Majesty, owned at Willowdale, Vandalia, Ill., was grand champion bull at the National Dairy Show, 1908. He has three lines of Oxford Lass blood, all through tested cows, and is sired by a grandson of Golden Fern's Lad. In the tests last year he had three young daughters that won Certificates of Merit, viz.:

Whitie Brown 13217, two years old, Certificate of Merit October 1908—yield 1 lb. 8 3-4 oz., 133 days in milk.

Majesty's Origa 12807, three years old, Certificate of Merit May 1908—1 lb. 10 1-4 oz., 157 days in milk.

Cherry Queen 2d 12633, three years old, Certificate of Merit May 1908—1 lb. 2 oz., ten months in milk.

Here it is pertinent to mention that Royal Majesty's full sister, Oxford Ixia 6th, is a Certificate winner; that his dam, Oxford Ixia 3d, has won Silver and Bronze medals in public tests on the Island; that his grandam (one of the three butter test daughters of Oxford Lass), won Bronze Medal and five Certificates of Merit in four years of public testing; and that his great-grandam (another daughter of Oxford Lass) has two Certificates, making 2 lbs. 1 3-4 oz. and 2 lbs. 4 1-4 oz. in her tests.

Whatever may be said of the Oxford and Golden Fern's Lad "nick," is worthy of emphasis in reference to the young bull, Sultana's Oxford Lad, son of Oxford Lad and Golden Sultana, now in service at Linden Grove. His dam is the daughter of Golden Fern's Lad that sold in Mr. Cooper's 1900 sale for \$1,600 (on first calf) to Dr. C. E. Still of Kirksville, Mo.; that went to the World's Fair in 1904, won third prize in a ring of 39 cows, and was sold while in the show ring for \$2,350 to Mr. Howard Willetts of New York, who latter sold her for \$3,000. She is out of Sultane 9th, daughter of Cicero and "old" Sultane, P. 7, H. C. Cows and heifers bred to Sultana's Oxford Lad will bring calves into a herd that are close up to royal old Island families, of which Sultane is not the least. On one side he gets two lines of Golden Lad and on the other side, two more lines, both through Golden Fern's Lad; and another line to Cicero and Sultane, whose blood is strong in Golden Lad's pedigree.

The Island butter tests of 1908 have added to the already brilliant record to the credit of Lady Viola and Golden Jolly, whose son, Viola's Golden Jolly, is the most sought after bull in service at Linden Grove. Sale catalogs and other public prints have made clear the prestige of his sire and dam, and Mr. Cooper set this forth so plainly last year that Jersey breeders are familiar with his pedigree and ancestral performances on "both sides of the house" up to the butter tests of 1908. Here another daughter of Golden Jolly—Vanilla 3d 11627—in the May test, distinguished herself by producing 2 lbs. 4 1-4 oz. churned butter in 24 hours under public trial; while Lady Viola's two granddaughters made the remarkable records in October of 1 lb. 13 3-4 oz., and 2 lbs. 6 1-4 oz. at two and three years old respectively. Both are daughters of Willow's Rosy 10444 (she out of Lady Viola), who herself made 3 lbs. butter in one day under public

test. The first of these, Miss Bagatelle 11331, was four months in milk after dropping first calf when she made the test.

We see better what a "butter union" this is when we recall the phenomenal record of Viola's Golden Jolly's full sister, Golden Jolly's Lady Viola, who, when only thirty months old and 159 days after dropping first calf, made 1 lb. 15 oz. butter in 24 hours.

Golden Jolly is bred much like Oxford Lad. Both had for dams, daughters of Count Wolseley—viz.: Brookhill Rose 2d and Oxford Lass—while the one had Golden Fern's Lad for a sire, the other for a grandsire. Lady Viola has two lines to Golden Lad. So far as Linden Grove breeding operations are concerned, the royal mantle of his distinguished grandsire has been handed down to Viola's Golden Jolly. Since the death of Golden Fern's Lad they have been besieged with inquiries from breeders in all parts of the country, asking a price on Viola's Golden Jolly and requesting the privilege of sending cows to him to be bred. It is not to be wondered at, the same patronage was accorded Golden Fern's Lad, and we predict for Viola's Golden Jolly a career which will give him the prestige his grandsire enjoyed.

A VISIT TO LINDEN GROVE FARM TO VIEW 250 HEAD OF JERSEYS RECENTLY IMPORTED.

VALENCY E. FULLER.

Last week I paid a visit to Linden Grove Farm, to see the great string of 250 head of imported Jerseys now in the various barns of Messrs. T. S. Cooper & Sons. Some of these I had already seen in quarantine and described them in the issue of Dec. 3, of the *Practical Dairyman*.

There was two objects in view: One was to see the rest of the daughters of Oxford Lad which were not in quarantine, the great string of daughters of Golden Fern's Lad and of Golden Jolly, and besides to see them all in their winter quarters before they had begun to cast their coats prior to the animal sale.

STOCK IS NOT "PAMPERED."

A good many stories had gone forth as to how the Messrs. Cooper "pamper" their Jerseys that are put up for sale each Spring. Had those who were responsible for these stories seen the cattle as I saw them on this visit to Linden Grove, they would have to admit that they are

not pampered during the winter time. They were in their roughest coats and while in good working order, were being very lightly fed. Quite a number of the cows are dry and are given only hay and all the water they will drink. I was informed that they were being fed no grain whatever. Personally I believe this is a mistaken policy, because if they were fed a moderate grain ration while dry they would produce a far healthier and larger calf.

The young stock, like the older stock, looked very rough, but healthy. I was glad to see in some of the barns that the Messrs. Cooper were using muslin sheet windows. Of course it takes a lot of room to house 250 head of cattle, and Mr. Cooper is almost at his wits' end to provide room for them all. He has built a new barn just back of the main barn, with 12 box-stalls in it, for the calving cows, but is not dry enough yet. I asked him if he had put tarred paper in the floor, and was glad to learn that he had.

The cattle are now housed in six barns, besides some young things in the horse stables, which Ralph calls "his calves."

A MAN WHO "NEVERS WORRIES."

We found Mr. T. S. Cooper in his cozy office, looking as bright, cheerful and as young as ever, and he gave us a hearty welcome. I have known Mr. Cooper for 25 years, and although he is one of the hardest-working men I ever knew, it is wonderful how he keeps his youthful looks; but if he is not careful he will not keep his hair much longer; there is quite a considerable bald spot visible now. Possibly if he would separate his hat from his head a little oftener his hair might stay in better. There are two things you will rarely see T. S. parted from: his hat and his heavy-soled boots.

He never sleeps long enough to take the latter off for any length of time. The secret of his keeping so young is that he never worries, or if he does, nobody knows anything about it. That imperturbable face would never tell you whether he had made or lost a thousand dollars. Cooper would have made a fine poker player.

On asking Mr. Cooper how many daughters of the celebrated bulls he had, he told me he had 29 daughters of Golden Fern's Lad, among them a full sister of Golden Jolly. She was dam of Rose Fern's Rose-

bud, sold for \$2,600 in the Walker sale of 1906. She is also dam of Sultana's Black Beauty, sold in the Cooper sale of 1907 for \$3,000. He has 21 daughters of Oxford Lad and one bull, Sultana's Oxford Lad, out of Golden Sultana. There are 20 daughters of Golden Jolly and two 11. C. sons of his, including Viola's Golden Jolly, first prize winner over the island. Among these daughters is the great butter test cow Golden Jolly's Lady Viola, who sold in the Overton Hail sale last Spring for \$2,500. There are 10 daughters of Bluebelle's Golden Fern, some in milk. There are 9 daughters of Eminent 2d, 10 of Royal Majesty, 9 of Flying Fox, one of whom is a daughter of old Bluebelle, namely, Bluebelle of St. Saviour.

There are three great butter test cows, winners of the Gold Medal, of the Silver Medal, and Bronze Medal, all at public competition.

LOOKING THEM OVER.

Mr. Cooper suggested that we go to the barn near the station to which I acceded. After we got in the road. Mr. Cooper got on that half-trotting gait, familiar to us all, and led me a merry dance to the barn for he can cover ground very fast. Here we found 32 head, most of them dry, some coming in including cows in milk and two-year-olds, besides younger heifers. They will all calve before Spring. Like every other building we visited, there was no artificial heat, the cows were not blanketed and were let rough it.

I was particularly interested in Oxford 131a, P. 7100. H. C., winner of the Bronze Medal in the butter test of 1900 when she gave 2 lbs. 8 oz. in a day, and of many other certificates of merit in the butter tests. She is a daughter of Oxford Lass and half sister to Calist, and is the granddam of Mr. G. G. Councils' Royal Majesty, the Champion and Sweepstakes bull of the western circuit. She is an exceedingly long cow with a great body and a beautiful head, well dished, very small incurving horns, long slim neck and fine wither, and is good through the heart. She has that prominent ridge bone running along her back that I love to see, and any amount of loose skin to make udder when she comes in. Her teats are large and well placed. Her milk veins are simply enormous, exceedingly tortuous, and almost cover her belly. She is a very wedge-shaped cow of the dairy type and looks like an all-year-milker.

TWO-YEAR-OLD HEIFERS.

The next barn we visited was near the house of Mr. Ralph Cooper. There were some very beautiful two-year-old heifers in there and the first we examined was Mabel's Pretty Nellie, by Mabel's Raleigh out of Poet's Nellie, a daughter of Mabel's Poet. She is in calf to Viola's Golden Jolly. What breeding this calf will have. Pretty Nellie is a very nice thing in every way, showing great constitution and stamina, with a great body and belly, a very beautiful head, grand back lines, wonderful promise of udder, especially the fore udder which runs away up on her belly.

Readers of the *Dairyman* know that we were very enthusiastic over the daughters of Raleigh's Fairy Boy that we saw in quarantine. We saw two more daughters of his in the stable, one out of Mabel 43, H. C., and the other out of Leda's Nursie, a daughter of old Nursie. They were a wonderful pair of heifers, with great depth of barrel for age and extraordinary promise of udder. I do not think I ever saw such an udder on so young a thing as that on a daughter of Mabel 43d. Fairy Boy certainly puts wonderful bodies, back lines, bellies, loose skin for udder and teats, on his daughters, and the udders run away up on their bellies. They are like little old cows.

I was attracted by an exceedingly light broken-colored heifer with a lovely head, very small yellow horns and a wonderful yellow skin. She has a perfect body, back and hips, and grand promise of udder. I was not surprised, on asking her breeding, to learn that she was by Lucy's Champion out of Elegante, 8294, F. S., and will be two years old next January.

SIX DAUGHTERS OF STOCKWELL.

In this barn there were six young daughters of stockwell and they showed extraordinary uniformity in color, size, conformation, and udder development, which was grand. They would be hard to excel in constitution, too.

Noble's Lily Grey, a daughter of Noble of Oaklands, out of Lily Grey, grand-daughter of Financial King in combination with Bluebelle blood dropped May 12, 1907, was sold in the last sale but was left to be bred to Viola's Golden Jolly. She is a very lovely thing as promising as can be with wonderful development of front udder, which is most marked.

Here, also, were three daughters of Bluebelle's Golden Fern and though bred very young, they made a wonderful showing of udders. It is really

remarkable that heifers with such comparatively small bodies should have such enormous udders. Nor was that all. The udders were about perfect in shape, very full and well up on belly, level between teats and well out behind. Judged by these daughters in milk, Bluebelle's Golden Fern will fulfill the high expectations Mr. Cooper has always had of him as a breeder. Well he might, for he is a son of Fern's Lad, out of old Bluebelle and Mr. Cooper paid \$3,000 for him as a calf.

Golden Lad's La Fontaine by Golden Lad 2nd, out of La Fontaine's Favorite (who was by Trial, by Sultane's favorite,) has just calved, and is a beautiful sight with her lovely head, incurving horns, grand body, great back, splendid rump and loin, and superb udder, enormous in size and covered with veins, and of perfect shape, both fore and rear. Her belly which is very near the ground, is covered with a network of veins. She is simply beautiful and a great milker.

RALEIGH'S FAIRY BOY.

In the barn near the horse stable, we saw Raleigh's Fairy Boy, First over Jersey, 1908. We have previously described him in the Practical Dairyman, but he looks like another bull than the one we saw in quarantine. We really did not have a good view of him then, as he was away up in the corner of a box stall. We realized that he was a tremendously deep bull but did not fully appreciate his great length or his showy qualities. He is a wonderfully showy fellow and if he does not prove another "champion" for next year's shows, we are greatly mistaken. The Coopers are famous for bringing out their sales, bulls that prove themselves and offering for public competition at "champions" in the show ring and this fact must have been in mind when this bull was purchased. We have already referred to his superb breeding.

We were shown another daughter of Fairy Boy that we had not seen dropped April 1st, 1907, out of Leda's Golden Queen 11641. She is like all the other daughters of this bull, a grand one in every way, showing great constitution, long body, straight back, great paunch and wonderful udder development. If the daughters of this bull fulfill their early promise, they will prove sensational cows. I told Mr. Cooper that I believed he had in Raleigh's Fairy Boy the greatest bull he had ever brought out, as a breeder.

Jessie Golden 12206 dropped Jan. 3, 1904, sired by Golden Jolly out of Jessie, due Feb. 9, 1909, to Lucy Prince, a son of Lucy's Champion,

would attract anyone's attention so handsome is she, and has that lovely finish that all the daughters of this bull have. We always admired the lovely backs and loins which Golden Jolly puts on his daughters. There is no lack of paunch on Jessie Golden. The Messrs. Cooper have 21 daughters of this bull, three of them in this barn, and a beautiful trio they are.

AN OLD STYLE COW WITH A RECORD.

We saw and admired a lovely cow of the old Connecticut type of body very long and exceedingly deep at flank. She was dry but had any quantity of loose skin, and such yellow skin to make udder firm. When fresh she must put up a grand udder. She has an enormous paunch. I said to Mr. Cooper, "There is a great cow and a worker all over," when he told me she won the Gold Medal last year, giving 2 lbs. 11 1-2 ozs. of butter in 24 hours when in milk 139 days. Her name is Florence Belle, 9108, H. C. She was dropped Mar. 19, 1901, and is by Rhymer, who is by Great Scot. Her dam is a daughter of Golden Lad.

By her side stood Bergere's Beauty 11259 H. C. She was dropped April 19, 1903, sired by Fancy's Pioneer and her dam was Bergere. She is a good deal of the same type as Florence Belle. She too has a great body, a wonderful depth at flank, and is long of barrel. She has great loins, broad hips, very level rump, prominent hip bones, and a magnificent udder of splendid shape. She is a grand cow. She took sweepstakes at the Western Show, 1908; was First Prize butter cow in the Butter test Oct. 1907, giving 2 lbs. 9 3-4 ozs. in 24 hours when 143 days in milk.

Polly's Beauty 11410 was bred by Bontellier from whom came Lady Viola. Beauty is five years old, and won the Silver Medal in the butter test of May 1908, making 2 lbs. 13 ozs. in 24 hours when 97 days in milk. She is a beautiful and good enough to please the most exacting critic. Her fore udder is wonderful in its fullness and the way it runs up on her belly. Her head is charming and her back lines are grand.

THE BLOOD OF GOLDEN FERN'S LAD.

Gamboge's Pride 7th, by Oxford 1ad out of Fontaine's Oxford Pride (known on the Island as Gamboge's Pride 4th) is a perfect beauty, as are all the daughters of Oxford Lad. Their straight backs to tail setting; and their lovely rumps which as a

rule are very straight; their strong loins; and their great udders, very perfect in shape, full, level, and well up on belly, hold the attention and admiration. They show great constitution and stamina. They speak volumes for this bull as a sire of great daughters and are grand dairy cows.

We all know how Mr. Cooper has pinned his faith to Golden Fern's Lad; and in this he has displayed that good judgment for which he is well known. Turn to the history of the show rings for the last few years and it will be found that all the great prize takers are descended from this great old bull. Take all the prominent bulls of the day and you will find them descended from Golden Fern's Lad. Although he is dead, his blood lives and breeds on. We were reminded of this on seeing Golden Fern's Lottie, by Golden Fern's Lad, one of the greatest prize taking daughters of this great bull. She is now ten years old. She is what might be called a big-little cow, for though she is not as long as some of the others, her great depth of barrel and wonderful paunch are grand; her back lines are superb; but when one examines her udder, it is readily understood why she has won so many prizes, so great is it in size, a veritable washtub, and perfect in shape, too. Her milk veins are wonderful in their size and tortuousness. She is a grand cow.

Poet's Nellie, dam of Mabel's Pretty Nellie, whom we have described before, is a worthy daughter of Mabel's Poet and that is saying a good deal. She was dropped Nov. 1901, her dam being Nellie Hope, by Orme. Poet's Nellie is a cow of great body, splendid back, nice rump and great udder. Her head, neck, and withers are grand and she is a very lovely cow.

From this barn we went to the main barn, where we found as great an aggregation of superb cows in milk as we ever saw housed at Linden Grove, and that is saying a great deal. They are representatives of all the most popular lines of breeding descended from that grand old bull, Golden Fern's Lad. It would be an impossibility and would become tiresome to give a pen picture of all these great cows, so we bunch sisters together, and will describe the characteristics of them as a whole.

Here we saw four two-year-old daughters of Golden Fern's Lad, each one of them with a beautiful udder, especially in the fore udder which runs well up on the belly, full and well rounded and level between teats. One

with second calf, out of a daughter of Hamley Imp., had that lovely level back and strong loin for which Hamley was justly celebrated.

BY LUCY'S CHAMPION AND GOLD-FERN JOLLY.

We saw a daughter of Lucy's Champion with first calf, with a nice head, a splendid neck and wither, straight back, grand udder and splendid teats. She is a very good milker and very pretty.

There was a daughter of Golden Jolly, Lady Jolly, out of Devotion 10th, by Mon Raisin. She is four years old and is exceedingly handsome. Her back lines are grand, her hip bones prominent and she shows in her lines of conformation that she has the same characteristic that all the daughters of this bull have, great continuity in milk. She has a very large and perfect udder and a grand vein for age.

Fontaine's Mona is a grand old cow, who shows in every line of her perfect conformation ideals of beauty and dairy quantities. Her head is a beautiful one, her neck and back are about perfect, her body is long and deep and her udder is an enormous one, rather pendant in nature, set off by large teats. She is a very handsome cow and has proved herself a great breeder.

My Golden Fern's Gold Mine, the highest testing daughter of Golden Fern's Lad, is a worthy stable companion of Fontaine's Mona. When fresh she must have a magnificent udder.

Two daughters in milk of Royal Majesty with first calf, stood side by side. They are both golden fawn, long and deep for age, with large, good shaped udders and grand teats. Majesty's Oxford Lass out, of Fair 1st 2d, especially appealed to us, with her enormous and beautifully shaped udder and her grand type. She is both a great beauty and worker. She looks like a little old cow already.

Eminent's Clemence H. C. is a lovely thing, as beautiful as one can imagine. Her body and back defy criticism; her skin shines like gold and her udder is beautiful. She was first over Jersey 1906. Her dam is Clemence 4th. 4393 H. C.

TWO GREAT COWS.

We were very much interested in Golden Fern's Rose Fern a full sister of Golden Jolly, being sired by Golden Fern's Lad out of Brookhill Rose 2d. She is now ten years old. She is a remarkable cow with her great body, so long and so deep. She has a lovely head, splendid wither, short legs, and

grand broad hips and loins. Her unctuous skin, and her great udder are marked. Is it any wonder that the daughters of Golden Jolly are in great demand? Why should they not be? They are very beautiful and possess the function for which they are bred, that of turning their feed into milk and they are truly beautiful. They milk themselves right away.

Golden Jolly's Lady Viola—what names to conjure with! She is a daughter of Golden Jolly out of that great cow Lady Viola and consequently is full sister of that grand bull Viola's Golden Jolly. She is just about as perfect a specimen of the breed as can be found. Her head is sweetly pretty, her neck is long, her wither is fine, and her back very straight right to tail setting. Her type is the strictly dairy one. Her body is long and exceedingly deep at flank and forms a wedge. She has a very lovely rump, prominent hip bones and an enormous udder with great teats, splendidly placed. Her udder is very level between teats. Taking her altogether she is a very perfect specimen of the breed and it goes without saying that she is very beautiful.

DAUGHTERS OF OXFORD LAD.

Oxford Lad's Lucy was born the 24th of June, 1902, and was sired by Oxford Lad out of Lucy 12th. 9236. Mr. Cooper called our attention to this cow. We told him we had already said so much of the daughters of Oxford Lad and had taken so many notes that we would only burden our readers: still, we felt we could not pass this cow without taking some notes of her. She is one of those low-set cows of that grand dairy type. It is very difficult to give an adequate pen picture of her that will carry our mental impression. She must be seen to be appreciated. When one has seen her, he will admit that in head, neck, wither, back, hips, loins, rump, richness of skin, size and perfection of udder, it would be hard to excel her.

While we were taking these notes, the cows were fed, and it was very evident by the way they ran forward in their stanchions that they were keen for their feed and were not satiated.

Again I had to stop. I could not pass by as beautiful a cow as Oxford's 1stia of St. Saviour, full sister of Royal Majesty, sire Oxford Lad, dam Oxford 1stia 5th. She was dropped the 9th of April 1902. She has a very beautiful head, well dished, large prominent eyes, great long neck and thin wither, and yet is deep through the heart.

She has a perfect back, so straight is it to tail setting, so good across the hips and loins, so prominent are her hip bones. Her udder is very large, in fact enormous, of ideal shape, set off by great large well placed teats. She is of the dairy type and a magnificent dairy animal, showing the great inheritance she and her brother, Royal Majesty, possess.

DAUGHTERS OF GOLDEN FERN'S LAD.

At the end of the row stood five daughters of Golden Fern's Lad, each showing the greatness of their sire as the getter of animals with utility and beauty of the highest order. Mr. Cooper can point to the daughters of this great bull with the greatest pride, as he certainly has fulfilled all the predictions that Mr. Cooper in his most sanguine moments, ever made of him.

BLUE RIBBON MATERIAL.

Majesty's Lady Houpla, sired by Royal Majesty, out of Lady Houpla, prize winner over the Island, Aug., 1907, is a very beautiful young thing. She was sold in the last sale to Dr. C. E. Still for \$2,000. The fact that the doctor bought her is a guarantee of her superiority. He always bids on the pick of every sale. She is now safely in calf to Viola's Golden Jolly. She carries a simply superb udder, of beautiful shape, for her age.

What a pair, of beauties, Golden Fern's Sensation and Golden Sultanina, mature daughters of Fern's Lad, are! What bodies they have! What beautiful backs and grand large udders, splendid teats and milk veins! They are about perfect in type, of that type we so seldom see now, possessing the constitution and stamina of the old-fashioned Jersey, with the fineness of finish of the more modern Jersey. They are beautiful enough to make any person break the ninth Commandment.

As we stood looking at this string of great cows, and families of great cows, we could not help but think, oh, if one had the opportunity of picking out a show herd from this string! Or, if one had the get of Golden Jolly, Golden Fern's Lad or Oxford Lad, picked from these stables, he could simply walk off with all the Blue Ribbons.

We have only been able to give descriptions of a few, compared with the whole, of the great strings of cattle housed in the various barns at Linden Grove. They are grand be-

yond description. It has been my pleasure to see every importation that T. S. Cooper or Messrs. T. S. Cooper & Sons have brought out; and the more I see of them, the more am I inspired with wonder at the ability of T. S. Cooper to pick better than he ever did before.

COUNCIL AT COOPER'S.

Mr. G. G. Council of Vandalla, Ill., the proprietor of the Willowdale herd of Jersey Cattle, on his return some time since from the station where his third importation of Jersey Cattle was in quarantine, accepted the invitation of Mr. T. S. Cooper to stop over at Linden Grove for a visit and to look over the last importation.

Mr. Council writes that he had a very enjoyable visit at Mr. Cooper's and that he was not surprised at the superb lot of cattle he found in fitting for the next Decoration Day sale at Coopersburg. He writes:
To The Farm Home:

On my way home from Quarantine Station in January, I had the great pleasure of spending a day at Linden Grove, the beautiful home of T. S. Cooper, Coopersburg, Pa., and had the privilege of seeing his grand collection of Jersey cattle that will constitute his next Decoration Day sale. In his late importations are a great number of splendid daughters of the great bulls, Oxford Lad, Golden Fern's Lad, Eminent, Noble of Oaklands, Royal Majesty, Stockwell, Golden Jolly's Lady Viola, and last but not least, Raleigh's Fairy Boy. Raleigh's Fairy Boy is without question one of the greatest bulls imported from the Island last year. He was champion bull on the Isle of Jersey, and he is certainly breeding right. I was fortunate in securing six of his daughters on my late trip to the Island, and they will be included in my May 19th sale. His get have great style, extra quality, and the much desired dairy type. While on the Island I saw dozens of his get, and everyone of them was a good one. I do not hesitate to predict that Raleigh's Fairy Boy will, in the near future, be generally recognized as one of the great breeding bulls of the breed, and Mr. Cooper has not imported very many greater ones, and he has brought to this country many of the best cattle bred on the Island. It was a pleasure to look over the grand lot of dairy queens at Linden Grove, and study their vigorous constitution and very superior dairy type. The most notable attractions in Mr. Cooper's

herd were those great daughters of Oxford Lad. Another thing that attracted my attention in this superb lot was the grand bunch of Golden Fern's Lad cows. The beautiful calves by the great bulls used at Linden Grove will be an inspiration and joy to any Jersey admirer.

After looking over the offering carefully, I do not hesitate to make the statement that I have never seen Mr. Cooper sell a better bunch of high class cattle than he will offer in his 1909 sale. No breeder of Jerseys should miss this grand opportunity of seeing this splendid bunch of cattle sold to the highest bidder. Your readers may be interested in a brief description of Raleigh's Fairy Boy, as I recall him. He is a bull of great style, quality and beauty, with a beautiful head; well dishd face; large prominent eyes; very pretty incurving horns; a grand, long neck, beautifully arched; a wonderful wither, forming a perfect wedge; strong, straight back; a very level rump, to tail setting, and his tail is set on just right, which is long and thin; his hip bones are prominent; his ribs are wide, flat and far apart; his body is very close to the ground; his skin is wonderfully loose, pliable and mellow. He is a bull of great constitution, power, stamina, yet as fine as silk. In fact, he is a good one from the tip of his nose to the point of his long, slender tail. He was first prize winner on the Isle of Jersey. I want to sound a note of warning to the man who shows against him at the fairs this year. He will know that he has met a hornet's nest. The best judges will say that but few bulls, if any, in America have a license to defeat him, and when it comes to breeding, his produce will show for themselves on sale day. No one has ever seen a grander lot of young things than his calves that will be sold by Mr. Cooper at his coming sale.

G. G. COUNCIL.

ONLY ONE TREE, BUT WHAT A CROP!

Mr. Cooper's advertisement on page 1750 shows the fruit of but a portion of the harvest from Golden Fern's Lad; think of the many other plums which have fallen from this same stock, whose seed has taken root in all parts of the world and is projecting the prepotency of this illustrious sire. Every son and daughter of Eminent, every one by Raleigh, every Oxford Lad and Stockwell bull and cow, the Flying Foxes and their kin, genera-

tion after generation of splendid cattle of this family, all reflect the greatness of Golden Fern's Lad. His has been a wonderfully good influence, and the herds of those breeders who are using the blood of Golden Fern's Lad show the unmistakable stamp of his quality.

APROPOS OF THE COOPER SALES.

H. D. Warner, Pawling, N. Y.

I was pleased and agreeably surprised to read in the March 11th issue of The Jersey Bulletin that T. S. Cooper & Sons are to hold their annual sale of imported Jersey cattle as usual on May 30th as I had heard it intimated that they would not hold a sale this year. I feel certain that all breeders of Jerseys will hail this announcement with joy, that they may again accept of the hospitality of "Linden Grove," which is so freely extended to buyers and pleasure-seekers alike.

I have attended all but one of the annual sales held at Linden Grove and have had the pleasure of meeting breeders from all parts of the United States, and have come to the conclusion that the incentive to travel such great distances to attend these sales is not only their unbounded confidence in the Coopers, but the fact of having an opportunity to bid on the "cream of the Island" and find the cattle as represented.

When one sees the same faces at the ring-side from year to year, many of whom have attended all of the Cooper sales, including those held in the early eighties, and have seen a million dollars' worth of Island cattle sold at these sales within that time, with never a law-suit or serious dispute growing out of these sales, it leads one to believe that there is nothing superior to the Coopers' method of doing business with their fellow-man.

I had the pleasure of examining their new importation in quarantine and found the older animals the equal (as a whole) of any of their former importations, and the younger animals far superior.

'INFLUENCE OF THE COOPER IMPORTATIONS.

J. E. Dodge, Narberth, Pa.

What deductions can we, as breeders, get from our visit to the Gedney Farm herd and sale? To me it was evident that the demand for good Jerseys far exceeds the supply. I was very strongly impressed with the fact that the beautiful, large-producing cow is the

cow of the day and the cow that brings the money. One would expect (from reports in some so-called dairy papers) to see a lot of under-sized, emaciated Jerseys, but instead we saw a lot of imported Jerseys, that have grown and developed into strong, robust animals, giving every evidence of doing great work at the pail and being a source of pleasure and profit to their owner.

I have been going to Cooper's year after year, studying the cattle to see wherein lay their great value. From my observations there and elsewhere, I would say it is largely due to the very superior character of the Cooper importations and the vast improvement these importations are making on the American Jerseys. Especially is this true in the second and succeeding generations. Practical men who are breeding for the improvement of their own herds and the breed at large, can not help seeing this and are laying a safe foundation for future successes.

The imported cows at Penshurst are better cows in every way to-day than when purchased at Cooper's; this is also true of the cows I bought for Hood Farm. I might add that three times the price paid for one of the cows would not induce Mr. Hood to part with her bull calf, and why should he when he is breeding all the time for improvement? Nearly all the breeders know of the wonderful utility and beauty of the Sophie's Tormentor and Hood Farm Pogis Landladies, due, I believe, to the influence of Tormentor, Baron's Sophie and Ona, all imported.

We hear on all sides, why is it the little Island of Jersey can keep selling their best year after year to America, England, Japan and other countries and still keep improving the breed? Is it not due to their system of registration, selection, shows and tests? Can not we learn much from them that will help us improve our herds? I have seen Cooper's last importation three times and I do not believe any lover of the Jersey cow can go there and not be inspired to try and improve his own herd.

Is there a Jersey breeder living but what would like to own such a herd? What an array of good ones! Beautiful cows, with size, constitution and capacity! What an array of Island butter test winners, cows that have made two and three pounds of butter in a day, two to three hundred days in milk! Who can measure the benefit to American Jersey herds by the mingling of the blood of these great

animals with them? The Jersey breeder who fails to go to Cooper's sale does himself an injustice.

“DOINGS” AT LINDEN GROVE.

Some months ago *The Bulletin* man wrote to Mr. T. S. Cooper and asked him to let the Jersey breeders of the world know through this paper what he was doing in the Jersey business. He soon replied that he was husking corn, and “doing a lot of thinking,” but that just as soon as he got a chance to “warm his shins in the office” he would give the information. He has lately written and promised that in the next issue of this paper will appear a statement of the performances of the famous bull Golden Fern's Lad and his progeny that will astonish the breeders. Jersey people will await with interest the next week's issue.

Mr. Cooper writes: “At the National Dairy Show held in Chicago last year, Jersey breeders thought that the winnings of the get of Golden Fern's Lad could never be beaten; but from all accounts of the Dairy Show held last week, his close representatives in breeding won such a list of prizes that I very much doubt if there is another bull of any breed that can show such great winnings as the blood of Golden Fern's Lad.”

ANOTHER “OLD BULL” FOR LINDEN GROVE.

At the Godney Farm sale last week, Mr. T. S. Cooper again demonstrated “the faith that is in him.” Oxford Lad topped the sale at \$3,300, and he went to Linden Grove. Nothing was more natural than that Mr. Cooper should buy this bull—perhaps the most distinguished purchasable sire of Island breeding now on American soil. Golden Fern's Lad, whose reign at Linden Grove terminated with his death in April or, rather, with incompetency a couple of years earlier—had to be succeeded by a sire of importance—a bull who had done things, whose sons and daughters are doing things, and who has a future. Oxford Lad was that bull, and his achievements will in all probability approach those of his predecessor. When Mr. Cooper bought Golden Fern's Lad in 1902 he fairly “stole” the bull at \$2,250, and he turned a similar trick when he got Oxford Lad at \$3,300. We know of a breeder who would have given five times that sum to get him last year. Those who are timid about

buying an old and tried sire, may well look into the career of Mr. Cooper, who bought Pedro at ten years old, Golden Fern's Lad at eleven, and Oxford Lad at eight.

T. S. COOPER & SONS LEASE EMINENT.

The famous bull Eminent 69631 (Eminent 2d, P. 2532, II. C.), goes back to Linden Grove, Coopersburg, Pa., for period of ninety days. Through a contract just closed with his owner, Mr. A. M. Bowman, Salem, Va., this distinguished son of Golden Fern's Lad has been leased for service in the Linden Grove Herd, where he will be shipped and retained three months.

It will be remembered that Eminent was sold in Mr. Cooper's 1905 sale for \$10,000 to Mr. Geo. E. Peer, who later transferred him at an advance to Mr. Bowman. At that time it was Mr. Cooper's ardent desire to retain the bull for his own use, as Golden Fern's Lad, was ageing and it was only a question of time when he would become useless. But Mr. Cooper had advertised the entire importation for sale, and, as had been his custom, kept his word and sold everything that was in condition, much as he wanted Eminent 2d at Linden Grove.

For the last two years he has tried to induce Mr. Bowman to lease the bull for a short period; but the owner appreciated the value of Eminent's services at Bowmont Farms too highly to entertain such a proposition. Eminent is the “high card” at Salem; the herd was being built up and strengthened with his blood; to let him go, even for a few months, could not be thought of at that time.

However, when Mr. Bowman went to Linden Grove last May and saw the magnificent daughter of Oxford Lad, Oxford 191a of St. Saviour (who, by the way, is full sister to the great bull Royal Majesty), and recalled her great Island butter test, he showed signs of weakening. He said to Mr. Cooper: “I wish I had a bull from that cow by Eminent 2d.” Here was an opening for just what Mr. Cooper wanted, and he very blandly suggested to Mr. Bowman that “such a thing might come to pass if he allowed Eminent to come to Linden Grove!” Whether or not Brother Bowman listened to the voice of the tempter can be gathered from Mr. Cooper's account of the “finish.” He writes: “You know Colonel Bowman is a great thinker, and not nearly so apt to fall asleep as I am; but when he does fall asleep, he

is always sure to wake up on the right side of the fence. That is what he did the second morning after he got to 'Linden Grove;' but he slept so soundly and did such a lot of thinking, that he was not satisfied with taking his chances alone on Oxford 1xia of St. Saviour. He also wanted a chance to get a bull calf out of the great public butter test cow Oxford 1xia, P. 7100, H. C. This cow is grandam of Majesty, and out of the Count Wolseley cow Oxford Lass, who is also dam of Oxford Lad. Then Mr. Bowman thought Golden Jolly's Lady Viola ought to be another great cow to breed to Eminent with the prospect of getting a bull calf. He was one of the number privileged to have a look through the 'cold storage barn,' and the animals he saw there convinced him that Eminent would be mated only with the very choicest of Island breeding. So he agreed to let the bull come here for 90 days."

Concluding, Mr. Cooper writes: "I doubt if there is another barn in the world that can show so many really first class bulls as there are now at Linden Grove. Besides Eminent 2d, we have Viola's Golden Jolly (son of Golden Jolly, dam the most sensational and highest priced cow in Europe, namely, Lady Viola), Blue Belle's Golden Fern (son of Golden Fern's Lad, dam the great old cow Blue Belle), Sultana's Oxford Lad (son of Oxford Lad, dam Golden Sultana), Viola's Golden Fern (son of Golden Fern's Lad, dam Miss Viola, 2 lbs. 15 oz. in public butter test), two full brothers sired by Golden Fern's Lad and out of the great cow Golden Beatrice 2d; a son of Golden Fern's Lad out of Mr. A. M. Bowman's great cow Eminent's Mona, a son of Golden Jolly out of a prize winning daughter of Mon Plaisir—really we have such a number of strictly first class bulls now at Linden Grove that they are getting very jealous of one another."

AT LINDEN GROVE.

W. R. Spann,
Fredericksburg, Va.

It was my good fortune a few days since to visit Linden Grove. I had not been there since the last sale, and I can not recall when I have spent a more pleasant day. All the barns are full to overflowing with beautiful jerseys. Mr. Cooper and the boys are preparing the greatest treat yet for Jersey lovers on next Decoration Day. The "plum tree" is loaded down and they will be ripe for the picking, and

so good in quality that you can just shut your eyes and grab without fear of getting a bad one.

There are so many outstanding winners that I can not begin to name them. As usual, the blood of old "Fern" dominates, and this year it will be thicker than ever. So many beautiful daughters of the old bull, and several of his sons, too. Then the Golden Jollys (just "Ferns" with the "Jolly" tacked on), splendid daughters of Eminent, Stockwell, Oxford Lad and other great sires. There have never been so many high-class young cows, and what a lot of great bulls to select from!

I noticed the image of old Golden Fern's Lad in a son of Golden Jolly. This is Golden Jolly of St. Peter, out of one of those splendid daughters of Mon Plaisir. Someone will get a great bull in this fellow. He has all the good qualities of old "Fern," with splendid length and more size. His calves show the "Fern" stamp.

Fairy Glen (by Raleigh and out of Fairy Glen is just about an ideal bull in conformation, and his young daughters give promise of that beauty and dairy quality that "fills the eye." There are a number of younger bulls that deserve especial mention, but what's the use? The Cooper catalog will tell it all as only an artist can paint it.

Mr. Cooper says he will sell about one hundred head. Many of these have been over from the Island over two years and some longer than that, and Mr. Cooper will have the chance to prove what he has always insisted, that Island Jerseys were better after two years' acclimation. They are "blooming" now, and on sale day those who have marvelled over the splendid condition in which Mr. Cooper always presents his offerings will marvel still more. It will only be that the cattle have fully acclimated, and it will be all the better for the buyer, as they will not "go back" after shipment.

There will be an unusual number of beautiful calves this year. Ralph is all smiles over this, as they, with about everything else, are his especial care. A few calves by the great prize-winning son of Golden Fern's Lad, Eminent's Goldmont Lad, will make the boys "sit up and take notice."

COOPER JERSEY SALE, MAY 31.

On Monday, May 31, 1909, Messrs. T. S. Cooper & Sons will hold their regular annual sale of imported Jersey cattle at the farm, Coopersburg, Pa. These gentlemen are without a

doubt the leading importers of Jersey cattle of the entire east of the United States. Years ago they brought over Hamley by Golden Lad and sold him for \$1,000. He was named Golden Lad's Champion in America and was the grand-sire of the great show bull, Guenon Lad's Champion shown so successfully for the past three years through central west and now owned by Mr. G. A. Chaffee, Minneapolis, Minn. The next great bull brought over by Messrs. Cooper was Mon Plaisir, also by Golden Lad. He sold for \$3,500 to Mr. Higginbotham of Joliet, Ill. Later on Messrs. Cooper brought over Champion Flying Fox and sold him to Thos. W. Lawson for \$4,500. The next great bull imported by Messrs. Cooper was Eminent. He sold under the hammer for \$10,000, and now heads the herd of Hon. A. M. Bowman, Bowman, Va. The crowning bull act of Messrs. Cooper's career to date happened two years ago at their Decoration Day sale, when Imported Stockwell brought \$11,500, going to Mr. A. B. Lewis, Fredericksburg, Va. In the same sale a then ten months old calf, bred by Messrs. Cooper, brought \$10,200, going to Mr. Bowman to breed to the daughters of Eminent. This bull was named the Sensational Fern and was by Golden Fern's Lad, the sire of both Eminent and Flying Fox. Stockwell was by Oxford Lad, a son of Flying Fox, while his dam was by Golden Fern's Lad. The "Leaders" among the bulls in Messrs. Cooper's next sale will be Raleigh's Fairy Boy, Golden Jolly of St. Peter's Mona's Handsome Fern and Distinction Noble. To follow out the blood lines of this quartet of bulls and what they have already done is convincing proof that they lack nothing in comparison with the great bulls that have gone before at Linden Grove. Raleigh's Fairy Boy was first over the Island April, 1908. He is by Eminent's Raleigh, the greatest breeding son of Eminent. His dam is considered the best cow on the Island to-day. She has won first over the Island three different times. Her name is Fairy Glen and she is by Orlando, the sire of the celebrated Rosette's Golden Lad that formerly headed the Kinloch herd at Kirksville, Mo. Good judges have said that Raleigh's Fairy Boy is the best bull Messrs. Cooper have ever imported. Golden Jolly of St. Peter is a son of Golden Jolly and out of the great cow Mon Plaisir's Queen by Mon Plaisir. Mr. W. R. Spann thinks this bull nearer the type of Golden Fern's Lad than any bull he ever saw. Mona's

Handsome Fern is by Golden Fern's Lad and out of Eminent's Mona that sold in Messrs. Cooper's 1906 sale for \$1,700, and since has tested 20 lbs. 2 as. Distinction's Noble is by Noble of Oaklands, considered the best bull now on the Island. Noble of Oaklands is by Blue Belle's Blue Fox, a son of Bobby's Shy Fox and Blue Belle, while his dam is the Three Times English Champion cow, Lady Viola. The dam or Distinction's Noble is Distinction's Queen by Oxford Lad, the sire of Stockwell and Royal Majesty. She won first over the Island and also won the Blythwood Bowl, and is a cow that cannot be bought. Among the cows in the sale are several "butter test" cows on the Island. Florence Belle won first and sweepstakes on the Island 1902 and 1903. She won the Gold Medal in the butter test May, 1908, making 2 lbs. 11 1-2 ozs. butter in 24 hours, and was 139 days in milk at the time. Mon Plaisir's Buttercup won first in the October, 1907 butter test, making 2 lbs. 9 3-4 ozs. in 24 hours, and was 143 days in milk. Polly's Brown Beauty won silver medal in the butter test, making 2 lbs. 10 ozs. in 24 hours and was 97 days in milk. Golden Fern's Distinction is by Golden Fern's Lad. She was first over the Island in 1902 and has a heifer calf in the sale by Royal Majesty.

Oxford Ixia of St. Saviour is a full sister of Royal Majesty and is bred to Viola's Golden Jolly, who is by Golden Jolly and out of the same dam as Noble of Oaklands. Included in the sale will be 17 daughters of Oxford Lad, 12 daughters of Golden Jolly, 8 daughters of Royal Majesty, 6 daughters of Lucy's Champion and others by Eminent, Mabel's Raleigh, Sultan of Oaklands, Mabel's Poet, Golden Fern's Lad, Stockwell, Noble of Oaklands, Raleigh's Fairy Boy, Leda's Golden Lad and others. The cows and heifers will be bred to Raleigh's Fairy Boy, Golden Jolly of St. Peter, Distinction's Noble, Viola's Golden Jolly and to Sultana's Oxford Lad, a son of Oxford Lad and the famous World's Fair cow, Golden Sultana. In the sale will be about 130 head, and with so many to sell in one day, it becomes apparent that there must be many snaps. The auctioneers will have to sell them so fast that the most of them will be sold before many people have an opportunity to think what is being offered. The man that goes to the sale who can think quick will be the man that will make the money. Stock purchased from Messrs. Cooper in other sales to be sold again has almost invariably

made their purchasers big money. The class of stock that the Coopers handle is such as to be attractions in any company. We will visit the herd personally within a few days now, and will then have an opportunity to write of what we see with our own eyes. The sale advertisement will appear in our columns in a short time. Write to Messrs. T. S. Cooper & Sons, "Linden Grove," Coopersburg, Pa., for a sale catalog and tell them that you read about it in the Live Stock World.

THE FARM HOME.

I have spent two days at Linden Grove looking over the 130 head of Jerseys to be sold by T. S. Cooper & Sons on May 31 and if any of our friends think we got excited since coming East I will say we did not and if you will come back with us again on sale day we will show you that we did not—neither have we drunk anything but water since leaving Illinois—those who know us know this is a straight tip.

It will be remembered that Linden Grove was the home of Golden Fern's Lad at the time of his death and the Home Breeding herd contains 29 of his daughters. Mr. Cooper says it is like pulling front teeth to let any of them go and when he does consign any Golden Fern's Lad cows to one of his sales it is done as an especial favor to his customers whose patronage no Jersey Breeder in America appreciates more than does Mr. Cooper. For this year's sale are listed two daughters of Golden Fern's Lad, and both good ones, one of them a first prize winner over the Island, but as the bull is half the herd—yes and breeders who know things have learned that he is more than half, so we will talk about the bulls at Linden Grove first. The main sire now in service at Linden Grove is the magnificent show bull, Viola's Golden Jolly, a son of the great sire, Golden Jolly, a bull that for his age and opportunity certainly accomplished as much as any Jersey Bull in years, and from what we have observed and been able to learn we do not even except his mighty sire or any of his mighty half-brothers. Viola's Golden Jolly's dam is the World famous cow Lady Viola, that won first over Jersey in 1904 and 1905, then went to England and in the shows of 1906, 1907 and 1908 cleaned up everything there.

Not only did she win everything in sight for five years in the show ring, but she won a certificate of merit in the butter test on the Island in 1904,

making 2 lbs. 12 ozs. in 24 hours and in England after being out on the show circuit for eight weeks won first in the butter test. She has three daughters that have all won certificates of merit in the Island Butter tests, one of them, Willoh's Rosy, making 3 lbs. butter in one day. Another one, Golden Jolly's Lady Viola (full sister to Viola's Golden Jolly) made the most phenomenal public butter test ever made on the Island having made 11b. 15 ozs. in 24 hours, 159 days in milk and only 30 mos. old at the time. Mr. Cooper paid \$2550 for her in Mr. J. M. Overton's last sale.

The third daughter, Miss Viola made 2 lbs. 15 ozs. in 24 hours. Miss Viola is now a member of Linden Grove's home herd and has a son Viola's Golden Fern by Golden Fern's Lad. He is one of the herd bulls.

Lady Viola is also the dam of the Island Bull, Noble of Oaklands, the most popular bull now on the Island and the sire of some of the best young things of both sexes in this sale.

Lady Viola has another bull calf in England that one of the American Importers that went to the Island this Spring tried to buy. The price asked was 2000 Guineas (\$11,000.)

Her blood breeds on—it can't help it.

As a show bull Viola's Golden Jolly can just go out and beat all the bulls we ever saw. Sounds big, don't it. Well, just come and see Viola's Golden Jolly. He is not in the sale, but there are a great many high class cows in the sale bred to him. His calves at Linden Grove will be where they can be seen sale day. They are all that can be desired.

Another great bull in service at Linden Grove is Sultana's Oxford Lad by Oxford Lad and out of Golden Sultana. Golden Sultana is by Golden Fern's Lad and out of Sultane 9th, who is the dam of Uncle Peter and of Sultane's Snowdrop (the dam of Sultana of Oaklands). By the way, Sultane's Snowdrop and Golden Sultana are full sisters. Their dam is a full sister to the great bull, Count Cleero, the grand-sire of Golden Lad. In conformation Sultana's Oxford Lad is much like his famous sire and with such a dam, he surely can be expected to place the Oxford Lad banner still higher on the pinnacle of fame.

The leading bull in the sale is Raleigh's Fairy Boy by Eminent's Raleigh out of the big Island Winning Cow Fairy Glen by Orlando, who is better known in America as the sire of Rosette's Golden Lad. Raleigh's Fairy Boy won first over the Island in April

1908. He is a show bull that will take a world of beating. Few Jersey Bulls can anywhere near stand up to him from a standpoint of beauty either, and the breeder who sticks close to beauty will not go far wrong in breeding operations. Great as is Raleigh's Fairy Boy as to his blood lines and as to his individuality, his true value; as that of every other bull lies in his produce. The first Fairy Boy heifer we looked at at Linden Grove was out of the dam of Mabel's Raleigh. Her udder development is wonderful; her fore-udder running half way to the middle of her belly—and she is not yet bred. We thought her greatness came from her dam—the dam of Mabel's Raleigh. Then we looked at the others—five in a row and they were all alike, so we concluded that Raleigh's Fairy Boy must have been the responsible one. There is an older daughter of Fairy Boy in another barn that will be one of the greatest young "cows" in the sale. Watch for her when you come to Linden Grove May 31.

Listen to Cooper

While up he does whoop 'er
And tells you about "Fairy Boy"

For he is a dinger;
A dead sure Bell Ringer,

When you see him 'twill fill you with
Joy.

Distinction's Noble is a beautiful two year old bull that is every inch a show bull—good enough to head any herd in the world and bred to the very height of fashion.

He is by the Island bull, Noble of Oaklands, and out of an Island cow that can't be bought—Distinction's Queen by Oxford Lad, and herself First Prize over the Island and winner of the Blythwood Bowl besides. Not only was Mr. Cooper attracted by this promising bull on the Island but other Importers have taken notice of him as well. Both Mr. Walker and Mr. Council brought over cows bred to him in their last importations.

Mona's Handsome Fern is a handsome bull by Golden Fern's Lad and out of Eminent's Mona, whose name suggests her \$10,000 sire. She sold in

one of Mr. Cooper's sales for \$1700 and since made a test of 20 lbs. 2 ozs. in 7 days.

Golden Jolly of St. Peter is one of the few sons of Golden Jolly that can be bought at any price and he can only be bought by the man who will "bid last" on May 31. He is the sire of one of the best heifers at Linden Grove (she is in the sale). He was imported in 1907 and is the sire of a young bull heading one of the oldest herds of Jersey Cattle in the State of Illinois. His dam is one of the best daughters of Mon Plaisir. In younger bulls that are ready for service now are 3 sons of Noble of Oaklands—One out of the great Butter Test cow, Mon Plaisir's Butter cup—the other two out of daughters of Eminent and Golden Jolly. There are two sons of Stockwell both out of Golden Fern's Lad cows. There is one by Oxford Majesty, out of Majesty's Fair Una by Majesty, one by Golden Maid's Prince out of a Golden Jolly cow and one by Jack of All Works out of a Stockwell cow. In "baby" bulls there are calves by Noble of Oaklands, Eminent's Goldmont Lad, Oxford Boy and others out of the best cows in the herd.

COWS.

When you think of a sale with several "Over the Island Winners," Gold Medal cows in the Island Butter Tests, Silver Medal Winners in the Island butter tests, Bronze Medal Winners in the Island butter tests, First Prize Winners in the Island Butter Test, the grandam of Majesty, a full sister to Majesty, the dam of Oxford Majesty, a Mabel's Raleigh cow out of the dam of Mabel's Poet, seventeen daughters of Oxford Lad, twelve daughters of Golden Jolly, six daughters of Lucy's Champion, four daughters of Majesty, several daughters of each Golden Fern's Lad, Eminent, Stockwell, and Leda's Golden Lad, a Raleigh's Fairy Boy heifer out of the dam of Mabel's Raleigh, heifer calves by Golden Maid's Prince, Noble of Oaklands, Oxford Majesty, Majesty, Eminent's Goldmont Lad,

Gambloge's Knight, Lucy's Prince and other Island celebrities it may begin to filter through that the 1909 Linden Grove offering lacks not a whit of equalling anything ever put up at auction in America. We will say more than that: It surpasses anything ever before attempted. We saw the cows milked and we know what they are doing, and the breeding is the very top notch all the way through the 130 head.

We could go on and enumerate "four-score" of the great females in the sale, but the catalog sets forth every one of them in detail and we do not want to tire Mr. Cooper's friends—and ours with too long an article, but we want to add a word in consideration of the fact that there are in this sale seventeen daughters of Oxford Lad and twelve daughters of Golden Jolly and that both Oxford Lad and Golden Jolly are dead, and no more of their get will be made. The situation that faces the Jersey Breeders of America is much the same as the one that faced the light harness people when Hambletonian died. Breeders of trotters grasped at the opportunity to get the last daughters of Hambletonian and so the elite Jersey Breeders of America will no doubt appreciate the last daughters of Oxford Lad and Golden Jolly. We do not mean to say that no more of them will be offered but one thing we are quite sure of and that is that never again will so many as seventeen by Oxford Lad and twelve by Golden Jolly go in one sale. When "opportunity" is past there's nothing left for the man who took too long to make up his mind but vain regrets. It's a long way to Texas and the twenty-nine by the two great sires are not enough to put one in each State. The breeders that avail themselves of the last chance to get them will have something that will always be rich and rare and any one of these cows if mated right will produce calves worth a half dozen calves of the ordinary sort.

GOLDEN FERN'S LAD, 65300, A. J. C. C.

(FOR REFERENCE ONLY.)

(P. 2160, Highly Commended, Jersey Herd Book. 6236, English Herd Book.)

FIRST PRIZE AND CHAMPION AT NORTH CLUB SHOW, 1896 and 1897.

Bred by Philip J. Ahier, St. Martin, Island of Jersey
Born May 17th, 1894.

Owned by T. S. Cooper, Coopersburg, Pa.
Imported by Mr. F. S. Peer, and sold at public auction, May 13th, 1903, when he was secured for exclusive use in the "Linden Grove" Herd, at \$2,250, being at that time (within four days) nine years of age. He died at "Linden Grove," May 29, 1908.

Sire

BOYLE,

P. 1559, H. C.

Sire of the celebrated bull, Golden Fern's Lad, P. 2160, H. C. Fontaine 7th, 8th and 9th, all prize winners over the Island Fontaine 9th, milked over 9,000 lbs. milk in a year; 41 lbs. 4 ozs. in 24 hours, from which 2 lbs. 10 ozs. of butter was made. "Boyle" also sired the great cow, "Speckled Band," dam of the wonderful cow, "Nursie," that made the phenomenal record of 2 lbs. 7 1/2 ozs. of butter in 24 hours in the public butter test, after being in milk 300 days, and within 90 days of calving. She sold in our May, '07, sale for \$2,200 to Mr. A. B. Lewis.

During our visit to the Island of Jersey, for a number of years, it has always been our great pleasure to examine the daughters of the famous bull, Boyle. They were of great size, carrying beautiful heads; thin, long necks; strong, straight backs, the very best of loins, broad hips, sharp withers, "bread baskets" wide and deep, which alone told the tale. The very best of udders and teats of good size and beautifully placed.

Everton King, P. 390, C., was a remarkable sire of grand cows of magnificent dairy type, inheriting the same from his illustrious dam, Quality, who won first prize and Champion Cup at the Royal Show, 1882, and made 16 lbs. 8 ozs. of butter. Twenty-six years ago, when on the Island, I was so taken with her that I bought, at a long price, her son, Everton King, P. 390, C., and left him on the Island to be bred to my cows before shipment to America. Quality is also dam of the great bull, Happy, P. 309, C., that left a grand lot of dairy cows on the Island.

Brown Fern 2d, P. 1944, H. C., is out of Brown Fern, F. 4606, C., dam of Eminence, F. 7124, C. Sweepstakes N. C. Show, '92. Dam of Little Eminence, 21 lbs. 6 ozs. Winner of 1st prize Wisconsin, Minnesota, Iowa, Indiana and St. Louis Fairs. Also Sweepstakes winner Minnesota State Fair, '02. Eminence is also dam of Eminence and Eminence 2d, two famous Island sires. Brown Fern is also dam of Brown Fern 2d, P. 1944, H. C., winner of 2d prize St. Martin Show, '94, '95. Brown Fern is also granddam of Golden Fern, P. 4711, H. C., 2d prize winner over Jersey, '94, and dam of the World-Renowned Bull Golden Fern's Lad, P. 2160, H. C.

GOLDEN FERN'S LAD, P. 2160, H. C.

The most celebrated bull the Island of Jersey ever produced. He has more Highly Commended animals (for the numbers registered) in the Jersey Herd Book, and more Champions and First prize Winners to his credit than any other bull. His son, Flying Fox, sold in our May, 1902, sale, for \$7,500. His son, Eminent 2d, sold in our 1905 auction sale, for \$10,000. His eight months' old bull calf, "The Sensational Fern," sold in our May sale, 1907, for \$10,200 and in the same sale his grandson, "Stockwell," sold for \$11,500. His daughter, Golden Fern's Sensation, won Second prize at the great St. Louis Show, 1904, and was sold at auction for \$2,250. His daughter, Golden Sultana, won Third prize at the great St. Louis Show, September, 1904, and sold in the ring for \$2,350. Ten of his get have been sold at an average of \$4,560 each. His five tested daughters averaged 18 lbs. 5½ ozs. each. His son, Eminent 2d, has eighteen tested daughters averaging 10 lbs. 4 1-3 ozs. each, and many more to come. His son, Flying Fox, has five tested daughters averaging 17 lbs. 4 ozs. each. His son, Carnation's Fern Lad, has six tested daughters averaging 16 lbs. 1½ ozs. each. Golden Fern's Lad's best daughter in the public butter test is Freedom, 2 lbs. 10 ozs. butter in 24 hours at Tring Show Ring, England, being 140 days in milk. Gold Mine, another daughter, won Gold Medal, Tunbridge Wells, England, 2 lbs. 7 ozs. butter in 24 hours, being in milk 150 days. If his son, "Golden Jolly," were living and could be sold at our next sale with his daughters, \$15,000 would not be a bad investment.

The following is a copy of what Mr. Peter C. Kellog wrote in Mr. Peer's Sale Catalogue when Golden Fern's Lad was sold:

"Golden Fern's Lad is without doubt the most popular Island bred bull with discriminating breeders in Jersey, England, and America, of any one that has ever appeared, not excepting his double grandsire, Golden Lad. He was taken from the Island to England in November, 1898, before his great worth as a sire became established, and ever since that time, Island breeders have expressed regret that he could not be brought back to Jersey. Had that been possible, those best informed express the belief that more money would have been paid for him and that he could have earned more in service fees than any other bull that ever stood on the Island.

"The uniform excellence of the cows got by Golden Fern's Lad, P. 2160, H. C., was the wonder of the Island of Jersey as soon as his earlier career as a sire had made the facts evident. Subsequently they became the admiration of all England, where the bull had gone and where most of his Island-bred daughters soon followed him. The leading herds of England were vying with each other to secure for exhibition and breeding purposes the very finest cows on the Island at the time when 'Fern's' daughters were coming into their inheritance. To obtain the best was to obtain his daughters, and it perforce followed that the Island was promptly almost stripped of them, and particularly of the better ones. They found places of honor in the herds of Lord Rothschild, at Tring Park; Mr. J. Reid Walker, at Rudgely; Mr. R. J. Pope, Plumpton; Capt. A. B. S. Frazer, at West Tarring; etc. A few determined Island breeders put prohibitive prices upon good daughters of Golden Fern's Lad, and when American breeders, after a long lapse, resumed importing on a more considerable scale, these few remaining daughters of Golden Fern's Lad were the highest priced cows on the Island. In his importation of 1899, sold at auction in May, 1900, Mr. T. S. Cooper brought one of these, registered here as Golden Sultane, 146282, that fetched the top price of his sale, \$1,600. Two years later, in May, 1902, the bull, Flying Fox, P. 2729, H. C., by Golden Fern's Lad, topped the same importer's sale by bringing \$7,500, which is the highest auction price for a Jersey that has yet occurred. But these conspicuous instances in this country very faintly reflect the great value of Golden Fern's Lad as a sire measured by the achievements of his daughters in the dairy tests and his sons and daughters in the show rings and the breeding fields of the Island, England, and, to some extent, America.

"I will not here present a list of his great winners, as that will appear in the catalogue; but as an evidence of the appreciation in which Golden Fern's Lad was held on the Island of Jersey, after his departure therefrom, I append a quotation from a letter written by Mr. John A. Perree, the Secretary from the Island Herd Book Association, to the Jersey Bulletin in this country. This letter was dated January 27, 1902, when Golden Fern's Lad had been some years in England, and when it was never dreamed that he would come to the United States, and was as follows:

"I just want to say what we think of Golden Fern's Lad on the Island. I thought of sending you a list of show and butter test winners sired by this great bull, but out of respect for your valuable space I have not done so.

"No bull, living or dead, can compare with him for having contributed such a large number of show winners in so short a time. I doubt if Golden Lad, with a much longer career, could compare with his double grandson (Golden Fern's Lad) in numbers. How he came to be sold for exportation was accidental.

"His owner and breeder, Mr. P. J. Ahier, of La Ferme, St. Martin, had the misfortune to lose his dam previous to her having been judged in the cow classes and her points recorded. As it was necessary at that time for a bull to be shown with his dam and the points of both totaled, Golden Fern's Lad was debarred from competition at the 'Royal' Show. This explains why no prize 'over the Island' stands to his credit. One enthusiastic gentleman (Mr. Charles Nicolle), who told Mr. Cooper that the Island lost \$50,000 when Golden Fern's Lad was exported, determined to secure this bull for the Island's use, and generously offered a silver cup to the committee of our society 'for an aged bull show with five of his female progeny.' This offer, though much appreciated by the committee, was declined on the plea that the fundamental rules of the society were positive on the way bulls had to be judged (with their dams). Mr. Ahier was a little disappointed, and having a good offer for the bull and considering that he had all his cows in calf by him and a promising successor in Eminent 2d in his stable, sold him.

"By way of illustrating how we prized Golden Fern's Lad, I will mention what occurred about two years ago. A certain local breeder, being under the impression that the importation of cattle into this Island was prohibited by a minute of one of the State's committees (there were many of the same opinion), was so confident of having this minute rescinded in regard to Golden Fern's Lad by the mass of evidence he could produce in support of his demand, that he inquired a price from the present owner. A price was given, but away in the hundreds (pounds Sterling), yet this did not deter the breeder I refer to. He would have the bull back if he could get it back. He applied to the State's committee, when he was informed that the prohibition was due to a permanent law sanctioned by the Queen in council, against which there was no appeal. I happen to know the price Mr. Walker wanted, and, high as it was, I feel it would have been a very remunerative investment if only Golden Fern's Lad could have been got back.

"He was one of the most prepotent sires we have ever seen. I have known cases where bulls have been refused qualification in the Herd Book on account of their dams not having sufficient merit, yet those same cows when bred to Golden Fern's Lad have produced winners at the Island and English shows. As milkers, his daughters are unsurpassed, and I have not known a single poor one among them; on the contrary, I have heard complaints from breeders that they will not go dry, and my own experience confirms their persistency.

"For the last twenty years, at least, no bull has sired stock to sell as readily as that of Golden Fern's Lad.

'JOHN A. PERREE.'"

GOLDEN FERN'S LAD, P. 2160, H. C.

Winner of First Prize and Championship at the North Club Show, 1896-'97.

Golden Fern's Lad has been universally acclaimed the Greatest Jersey bull the world has ever known. Never has any bull combined so many of the various requirements which are associated with the perfect dairy animal. His influence has been felt from Pole to Pole and wherever the name of the Jersey is known his blood is in continual demand.

Still the surface of Golden Fern's Lad's fame is barely scratched. He demonstrated his value while he was alive and while there was still time for breeders to avail themselves of his services. But with all this the wonderful vitality and re-producing power which existed in him was not appreciated to his true value. He was as so many other great bulls have been—admired and esteemed and the value of his get were recognized; but his enormous services to the cause of the Jersey cow were as yet undiscovered.

Golden Fern's Lad is now dead; but his blood still breeds on at "Linden Grove," where he lived since his importation to this country. It was while he lived here that the great St. Louis Fair of 1904 took place, where his sons and daughters covered themselves with glory; and there it was that breeders realized that a new vitalizing force had arisen in the Jersey world. They realized that Golden Fern's Lad was a bull of more than extraordinary prepotency and quickly sought his blood. Since then the get of Golden Fern's Lad has been the factor to deal with in the show-rings, and public butter tests in England, on the Island, in America, in Australia, and in New Zealand. He and his near descendants have won practically every winning of any importance throughout the United States and elsewhere for the past three years and covered themselves with glory by winning the Championships and Grand Championships at the National Dairy Show, Chicago, Ill., The New England Fair, Worcester, Mass., The New York State Fair, The Brockton (Mass.) Fair and innumerable prizes at many other Fairs during 1908.

During the past few years the get of Golden Fern's Lad have realized record prices at the various auction sales. His grandson, "Stockwell," sold for the record price of \$11,500, his son, "Eminent," sold for \$10,000, and his eight months' old bull calf, "The Sensational Fern," sold for \$10,200. Ten of his get have averaged \$4,560 each at public auction.

GOLDEN FERN'S LAD Sired THE FOLLOWING BULLS AND COWS :

- | | |
|---------------------|---|
| Flying Fox, | First and Champion over the Island, August, 1899, sold at auction for \$7,500. Flying Fox has five tested daughters, averaging 17 lbs. 4 ozs. |
| Eminent 2d, | First State's prize over Jersey, for best bull with five of his get, in 1901 and 1902, and Goddington Purse in 1902. He sold for \$10,000 in our 1905 sale and he has eighteen tested daughters averaging 19 lbs. 4½ ozs. each and many more to come. Golden Fern's Lad sired "Golden Jolly," P. 2921, H. C. First prize and Champion, North Show, 1906. He sired the Bronze Medal Winner in the Public Butter Test on the Island, October, 1905, making the phenomenal test of 1 lb. 15 ozs. of butter in 24 hours, after being in milk 159 days, and after first calving. He also had five other daughters in same test, which attracted great attention. If "Golden Jolly" was living and could be sold at our next sale with his daughters, \$15,000 would not be a bad investment. |
| Napoleon Bonaparte, | First over Jersey, April, 1899. First over Jersey, August, 1900. Second State's prize with his get, 1901. Goddington Purse, 1901. |
| Wellington, | First over Jersey, April, 1900. First prize over Jersey, August, 1901. |

| Crusoe, | First prize, Belfast Show, Ireland, 1901. |

T. S. COOPER & SONS' AUCTION SALE OF JERSEY CATTLE, MAY 31, 1909.

Carnation's Fern Lad, Mr. A. P. Walker, Rushville, Ind., has furnished us with the following list of prizes won by his bull, **CARNATION'S FERN LAD**: He has six tested daughters averaging 16 lbs. 1½ ozs. First prize and Sweepstakes Bull at Iowa State Fair, 1901. First prize at Minnesota State Fair, 1901. First prize at Wisconsin State Fair, 1901. Headed First prize herd at Iowa and Minnesota State Fairs, 1901. First prize and Sweepstakes Bull at Kentucky State Fair, 1901. Headed First prize herd at Kentucky State Fair, 1902. First and Sweepstakes, Shelbyville, Ky., 1903. First and Sweepstakes, Indiana State Fair, 1903. Headed First prize herd, Indianapolis and Shelbyville, 1903.

Mr. Walker also adds the following note: "Besides this, in 1901 and 1902 he won several First prizes as 'get of his sire,' being shown with three daughters of Golden Fern's Lad, including the two famous 'black cows' out of Brookhill Rose 2d. I can not begin to remember all the First prizes won by his get. They have often beaten select rings as 'get of sire,' and most of the young stock I showed in class was of his get. His son, Captain Nick, was a 'sensational' bull in 1904.

"It is hard to beat the Ferns, either in the show ring or at the pail. I have 'pinned my faith' largely to this blood, using outcross to some other branch of the Golden Lad and Wolseley strains. My best milkers have come from that breeding, and I am not ashamed of the young stock that has been bred from Carnation's Fern Lad on Golden Lad Cows."

Golden Fern's Grey Fontaine, First prize and Champion, Brockton, Mass., September, 1906.

Mona's Golden Fern, First and Champion at leading shows through Texas, 1906.

Fontaine's Boyle, First prize at London and Toronto, 1906.

Emanon, Grand Champion Bull at National Dairy Show, Chicago, 1906, and many other prizes.

B**Bull.****VIOLA'S GOLDEN JOLLY, 79314, A. J. C. C.****(FOR REFERENCE ONLY)**

Bred by I. W. Le Boutillier, St. Ouen, Island of Jersey.

Born March 22d, 1901.

Imported October 8th, 1901, by T. S. Cooper & Sons.

Solid color, black, tawny and switch.

The following description of Viola's Golden Jolly, by so great an expert judge as Mr. Valency E. Fuller will carry conviction.

"Here is a bull that will suit the most fastidious judge. He is one of the handsomest bulls I have seen for many a day, clean cut as possible, yet exceedingly long and very deep, especially at flank. His head is simply beautiful, very much dished, with prominent eyes, and as he was led out he carried his head up as if he knew we would admire him. He has a wonderfully long, clean neck, a perfect wither, a deep through the heart and has a back to tail setting that defies criticism. He is splendidly ribbed, is short legged and has a great paunch. He is well cut out behind, his hide is like shiny satin, is soft and mellow and yet shows plenty of circulation of blood. His thighs are flat and he has a good arch behind. He is wonderfully handsome, with grand carriage, exceedingly rich, and a bull that would impress anyone with his perfect individuality."

Sire**GOLDEN JOLLY,
P. 2921, H. C.**

First prize and Champion, North Show, 1900.

Sire of

VIOLA'S GOLDEN JOLLY, 79314, A. J. C. C.
The "Shining Star" of the "Linden Grove" herd.

A bull of matchless breeding, quality, and conformation. A grandson of Golden Fern's Lad, P. 2160, H. C., through that great sire of high-testing, prize-winning cows, Golden Jolly, P. 2921, H. C., out of the most sensational cow in Europe, Lady Viola, P. 8463, H. C., the greatest show cow the breed has ever seen on exhibition. Her winning in the public butter test at the Tring Show, England, after being on the show circuit for eight weeks, was remarkable; and her prepotency has never been equalled in the breed. So great is her owner's admiration for her and so confident is he of her great power to transmit quality and prepotency to her offspring, that he has repeatedly refused to name a price on her and has recently asked an American importer 2000 guineas (\$11,500) for her bull calf who was dropped this spring. Taking all these facts into consideration, we consider Viola's Golden Jolly one of the three greatest bulls we have ever owned, and we ask critical students of Jersey matters: If Golden Jolly, the sire of Viola's Golden Jolly, by Golden Fern's Lad, out of Brookhill Rose 2d, was worth \$15,000—the Island valuation—what is Viola's Golden Jolly, by Golden Jolly, out of Lady Viola, worth?

LADY VIOLA, P. 8463, H. C.

(The property of Alexander Miller-Hallett, Esq., Goddington, Kent, England.)

She won First over Jersey, 1904. Certificate of Merit in Butter Test, May, 1904, yield, 2 lbs. 12 ozs., 50 days in milk. First over Jersey and winner of the Theatre Champion Cup, May, 1905. First prize, Sweepstakes and Champion, St. Saviour and Grouville Shows, 1905. First over England, wherever exhibited, 1906. First prize, Royal Counties Show, Cardiff, 1907. First prize, Royal Show, Lincoln, 1907. First prize, Tunbridge Wells Show, 1907. First prize, Tring Park Show, 1907. First prize, Tring Show, for tested cows (after being on the show circuit for eight weeks), 1907. Champion, Tring Show, 1907. First over England, wherever exhibited, 1907, 1908.

Lady Viola is sired by NOBLEMAN, P. 2555, H. C. First over Jersey, August, 1898. Her dam is Bagatelle 2d, P. 6564, H. C. A magnificent dairy cow. Full sister to Golden Lad's Fawn Duchess, 166538, who tested 23 lbs. 6 ozs., in 7 days.

Lady Viola is dam of

NOBLE OF OAKLANDS, P. 2909 H. C. First prize, St. Saviour Show, 1907, for whom Mr. Perree has refused \$10,000. MISS VIOLA, P. 9644, H. C. Certificate of Merit in Butter Test, May, 1905, yield, 2 lbs. 15 ozs., 39 days in milk, when 4 years, 1 month old.

WILLOH'S ROSV, P. 10444, H. C. Winner of Parish prize, August, 1904. Certificate of Merit in Butter Test, May, 1906, yield, 3 lbs., 38 days in milk, when 4 years, 1 month old.

POPPY VIOLA, P. 10902, H. C., now named GOLDEN JOLLY'S LADY VIOLA, 203699, A. J. C. C. Winner of Bronze Medal in Public Butter Test, October, 1905. She was imported by us in 1906, and sold in our May, '07, sale. She was re-bought by us at Mr. J. M. Overton's 1908 sale for \$2,556. She is looked upon on the Island as having made the most phenomenal public butter test, taking into consideration age and lactation, ever made testing 1 lb. 15 ozs., 159 days in milk and only 30 months old. She made a private test of 2 lbs. 9 ozs. in 24 hours. She is full sister to the bull, Viola's Golden Jolly, the "shining star" of the Linden Grove herd.

Also a yearling bull calf, sired by Blue Sultan, for which her owner asked an American importer 2000 guineas (\$11,500).

C Bull. SULTANA'S OXFORD LAD, 76506, A. J. C. C.

(FOR REFERENCE ONLY.)

Bred by Howard Willets, White Plains, N. Y.
Born February 11th, 1907.
Solid color, black tongue and switch.
Sultana's Oxford Lad has a very handsome head, with horns as rich as gold. He resembles his famous sire, "Oxford Lad." He has a lofty carriage; his back is as good and straight as any that I have ever seen on a bull of his age. He has magnificent loins; hips of great width; his tail is hung as balanced with a scale, and it is thin and long with a beautiful switch. He has great width through the heart, showing great constitutional stamina. He comes honestly by this as his sire, Oxford Lad, was a bull of great stamina and possessed great dairy quality. He has a thin, loose, mellow hide.

Sultana's Oxford Lad is a grand bull. He is magnificently bred and so good individually that he can not help but prove a successful sire. His sire, "Oxford Lad," will go down in Jersey history as siring the greatest string of dairy cows that ever lived. The dam of Sultana's Oxford Lad is the magnificent cow, "Golden Sultana," of World's Fair fame. Mr. G. Schreiber, when taking her picture a few days ago, made the remark that "she was the most perfect model of a dairy type that he has ever seen"—and he has photographed the best.

GOLDEN

SULTANA, 146282, A. J. C. C.

Winner of 3d prize in class for aged cows at the Louisiana Purchase Exposition St. Louis, 1904, in the greatest ring ever exhibited in this country, where she sold for \$2,350. We afterwards bought her for the "Linden Grove" home herd.

Golden Sultana is an intensely bred "Sultane." She is sired by Golden Fern's Lad, P. 2160, out of Sultane 9th, P. 1145, H. C., winner of many first prizes over the Island and dam of "Uncle Peter," P. 2115, H. C. Her dam, Sultane, P. 7, H. C., is the first of the greatest family of Jerseys ever bred and owned by that famous breeder, Mr. J. P. Marett. Thus Golden Sultana is a granddaughter of old Sultane and her nearest living descendant. She has inherited the famous dairy type, especially in the udder and teats for which her granddam was famous and has inherited all her abundant dairy qualities, having milked as high as 48 lbs. daily while in the Gedney Farm herd and this on ordinary feed. She is a full sister to Sultane's Snowdrop, dam of Sultana of Oaklands.

Golden Fern's Lad, P. 2160, H. C.

1st and Champion at N. C. Show, '96, '97.
The most celebrated bull the Island of Jersey has ever produced. His son, Flying Fox, sold in our May, 1902, sale for \$7,500. His son, Eminent 2d, sold in our May, 1905, auction sale for \$10,000. His ten months' old bull calf sold in our May, 1907, sale for \$10,200, and in same sale his grandson "Stockwell" sold for \$11,500.

At the National Dairy Show, Chicago, the grand champion and junior champion females were daughters of Golden Fern's Lad. The Grand Champion bull was a grandson, and out of a granddaughter of Golden Fern's Lad. The four prizes for bull and get the most important of all prizes all went to Golden Fern's Lad and his close descendants.

SULTANA'S OXFORD LAD, 76506, A. J. C. C.

He was bought by us when a calf at Mr. Howard Willets' sale, May, '07, for \$1,025. At this price, he was considered by good judges the cheapest animal sold, although he topped the sale. At the time of sale he was a very sick calf, and we were told by many there that he would die before we got him home. One prominent breeder told us that he came to the sale prepared to pay \$3,000 for him but when he saw his condition he did not bid on him as he did not wish to buy a sick calf.

Sultana's Oxford Lad has all the well-known marks of the Sultane family, being very refined in bone, elegant and perfect in conformation but with good constitution and food capacity. His skin is rich, soft and mellow; his back is very straight and strong and he is well-ribbed up. He is a bull that impresses one with his individuality.

He is sired by the famous bull, "Oxford Lad," out of the grand cow, "Golden Sultana," the greatest living representative of the Sultane family, whose picture appears on the following page. This "nick" of the Oxford-Sultane families should be productive of the best results and it is our firm opinion that time will prove it to be a greater cross than the wonderful results achieved when Mr. Marett crossed the Wolsleys and Sultannes.

Sultana's Oxford Lad will, it is our most sanguine expectation, prove himself to be one of the greatest bulls of the breed. He was much appreciated by good judges who saw him as a calf during our '07 sale and we were asked to put him in the ring, being told that he would sell for more money than the highest priced bull sold that day.

GOLDEN SULTANA, 146282, A. J. C. C.

Winner of Third Prize in aged cow class, Louisiana Purchase Exhibition, St. Louis, 1904, in the greatest ring ever exhibited in this country.

When visiting the Island in 1899, my ambition was to own the best bred Sultane female on the Island. Lord Rothschild's agent had instructions to buy any that Mr. Marett would sell. With the assistance of Mr. John A. Perree we pleaded with Mr. Marett for a price, telling him she would bring him more glory if he left her go to America to be sold at auction where all the best breeders would see her, than if she was locked up in a nobleman's stable. The price was given and accepted, so she came to America and was sold in our auction sale, May, 1900, for \$1600, to Dr. C. E. Still, Kirksville, Mo. We bought her and her bull calf afterwards from Mr. Howard Willets, White Plains, N. Y., for \$4025.

Golden Sultana is the greatest living representative of the world-famous Sultane family. On her sire's side, she exhibits to perfection those peculiar characteristics of combined "beauty and utility" which has made Golden Fern's Lad famous, having won one of the greatest prizes which it is possible to win and having milked 48 lbs. daily for a considerable period. On her dam's side, she may be said to represent the acme of Island breeding, being a daughter of Sultane 9th, 1145, H. C., who won First over Jersey, '01; Champion over Jersey, '93, and Reserve for the Blythwood Challenge Bowl, '91 and '93. She was the dam of the famous sire, Uncle Peter, P. 2115, H. C. Her grandam, Sultane, P. 7, H. C., is the first of the greatest family of cows the Island has ever seen. She was the dam of many great animals, including Sultane 5th, winner of First Prize over the Island in '80, and sold in our May, '83, sale to Mr. A. B. Darling for \$2,800. In a letter written under date of January 15th, 1883, Mr. J. P. Marett, the famous breeder, says: "I am happy to state that the Sultane family, without exception, have always been good milkers and possessed of great richness."

D Bull.**EMINENT, 69631, A. J. C. C.**(Eminent 2d, P. 2532, Highly Commended, J. H. B.)
(FOR REFERENCE ONLY.)

Sire of eighteen tested daughters, including Eminent's Evasion, 24 lbs. 8 ozs., and Eminent's Snow, 24 lbs. 2 ozs., averaging 19 lbs. 4 1/2 ozs. These tests were made by eight different owners in six different States. Eminent 2d sold in our May, '05, sale for \$10,000. He is now owned by Hon. A. M. Bowman, Salem, Va.

Bred by Philip J. Abier, St. Martin, Island of Jersey.

Born January 3rd, 1897.

Imported September 27th, 1904, by T. S. Cooper & Sons.

Solid color, black tongue and switch.

Of lofty carriage and aristocratic appearance. His get entitles him to this privilege. He carries an exceedingly handsome head, with large, prominent eyes, short, rich, amber horns, dished face; beautiful neck, best of withers long, strong, straight back, broad hips, well set tail, thin and finely tapered, with magnificent switch, neat in bone, hide like his Daddy, rich, loose and soft as a mole's, body of enormous depth and width, rudimentaries as large as old Pedro's and beautifully placed.

Eminent 2d is without any exception the handsomest and most typical dairy bull we have ever seen. Where is there another bull that can claim the distinction of being sire of five of the best females shown at the Royal Show over the Island for two years in succession and at the same time being good enough to be shown in the best company himself.

Sire**GOLDEN****FERN'S LAD,**

EMINENT 2d, P. 2532, H. C.

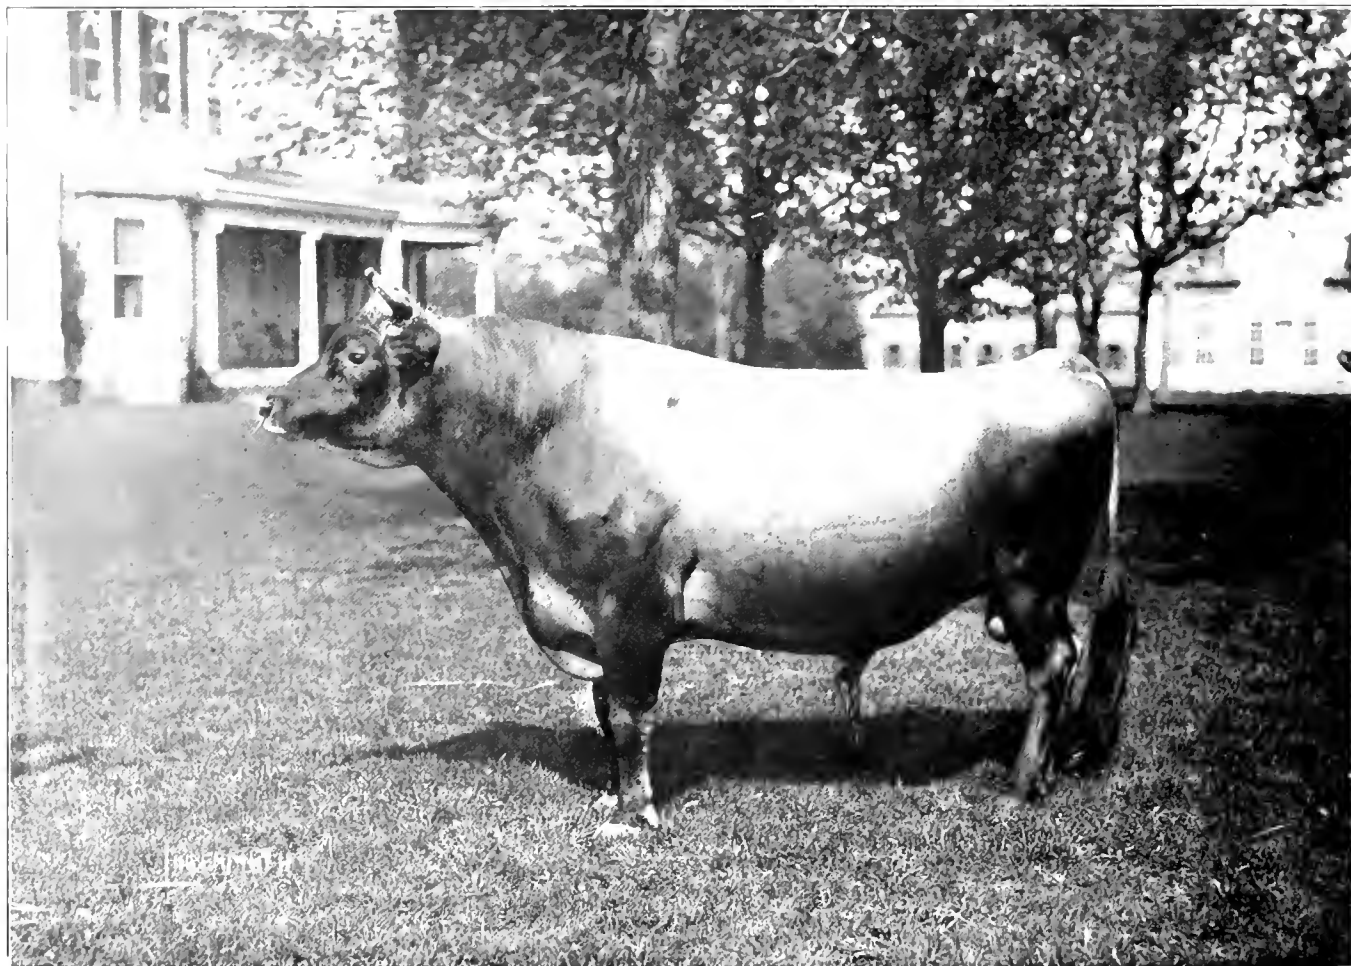

Sired by Golden Fern's Lad, P. 2160, H. C.

Eminent 2d was sold in our May, 1905, sale for \$10,000. He is now owned by the Hon. A. M. Bowman, Salem, Va. He had the honor of winning first State's prize over the Island in 1901 and 1902 for the best bull to be shown with five of his registered daughters in milk. This highly prized award shows that Eminent 2d is not only an excellent individual, but a sire of cows of the best dairy type. We will sell some splendid cows sired by him in this sale which will convince all of his great prepotency, not only in producing cows of excellent show-ring qualities, but animals of the best dairy conformation, with large, well-shaped udders and good teats that are beautifully placed.

Amongst many other prize winners, he is sire of the following butter tested cows :

Eminent's Evasion, 24 lbs. 8 ozs. ; Eminent's Snow, 24 lbs. 2 ozs. ; Eminent's Belle of St. Saviour, 21 lbs. 1 oz. ; Eminent's Fawn Beauty, 20 lbs. 12 ozs. ; Lady Eminent, 20 lbs. 11 ozs. ; Eminent's Golden Lena, 20 lbs. 4 ozs. ; Eminent's Lady Sultanne, 20 lbs. 2 ozs. ; Eminent's Mona, 20 lbs. 2 ozs. ; Eminent's Jewel, 20 lbs. ; Eminent's Eminence, 19 lbs. 2 ozs. ; Eminent's 2d Bess, 18 lbs. 10 ozs. ; Eminent's Fawn Buttercup, 18 lbs. 2 ozs. ; Rosefern Rosebud, 17 lbs. 15 ozs. ; Eminent's Brown Princess, 17 lbs. 7 ozs. ; Eminent's Buttercup, 17 lbs. 6 ozs. ; Eminent's Virginia, 16 lbs. 13 ozs. ; Eminent's Dairymaid, 15 lbs. 7½ ozs. ; Eminent's Ruby, 15 lbs. 3 ozs.

Eighteen of his daughters averaged 19 lbs. 4⅓ ozs., tested by eight different owners and in six different states.

Winner of First Prize, St. Lawrence Show, 1903.

Winner of First Prize, St. Lawrence Show, 1904.

An exceedingly handsome daughter of the great Eminent 2d. She is also a great dairy cow. She sold in our May, 1907, sale for \$1,100, to Hon. A. B. Lewis, Fredericksburg, Va.

Her udder at calving was the most remarkable of any that we have ever seen, both in size and beautiful conformation, measuring 78 inches around, and teats 5 inches apart. Mr. T. M. Ware, Superintendent for Ayer & McKinney, and Mr. L. F. Herrick saw her 48 hours after calving and were amazed.

Eminent's Lucy Belle, 203639, A. J. C. C., is dam of "Lucy's Champion," 79315 (See picture on opposite page and his pedigree on page H) the great-prize-winning bull who is the sire of a beautiful collection of young things on the sale. He now stands at the head of Mr. H. V. Prentice's herd at Worcester, Mass.

He was sold in our May, 1908, sale to Mr. H. V. Prentice, Worcester, Mass.

Bred by W. J. Mallett, St. Saviour, Island of Jersey.
Born April 2nd, 1904.
Imported October 8th, 1907, by T. S. Cooper & Sons.

Solid color, black tongue and switch.
"Lucy's Champion" need only to be seen to be admired. In color he is a beautiful dark silver grey, with magnificent eyes. He swings one of the handsomest heads ever seen on a bull, with horns as rich as gold, large, prominent eyes, thin, long neck, very long, strong, straight back, best of loins, broad hips, beautiful setting of tail, which is thin and long, with splendid switch, neat in bone, thin, sharp withers, wedge-shaped body of great depth and width, soft, rich, mellow hide. Altogether his form is symmetrical and highly finished, and his general appearance indicative of the highest order of quality and great constitutional stamina, and he is worthy to head any herd in the country. His breeding and individual excellence is all that any breeder could wish for. As for a sire his get will show for themselves day of sale.

Bred by Col. C. P. Le Cornu, St. Peter, Island of Jersey.

Born May 2nd, 1906.

Imported November 17th, 1908, by T. S. Cooper & Sons.

Solid grey, with exception of dappled white on chest; tongue and switch black.

A very handsome young cow, nice head; large, prominent eyes; thin, long neck; long, straight back; very broad hips, a characteristic feature of all the daughters of "Lucy's Champion;" beautifully set tail, which is thin and long, with splendid switch; neat in bone; thin, mellow hide; good body; splendid udder development with good-sized and well-placed teats.

Sire

LUCY'S
CHAMPION,
P. 3731, H. C.

Is a son of the famous bull, "Oxford Lad," P. 3123, H. C., out of that great cow, "Lucy Belle," P. 8962, H. C., one of the best daughters ever sired by that great bull, Eminent 2d.

Lucy's Champion was imported by us, and sold in our May, '08, auction sale to Mr. Harry P. R. T. C. Worcester, Mass. Before shipment to America he won on the Island, sweepstakes at Western Shows, April, 1906; champion at Western Shows, April, 1907.

In America he was First Champion and Grand Champion and headed the First Prize Herd at the great shows held at Worcester, Mass.; New York State Fair, held at Syracuse, and at Brockton, Mass., all in the fall of 1908. He certainly is a wonderful sire, and was rated by that veteran breeder, Mr. Francis LeBrocq, Island of Jersey, as the best bull they had in the Western Parishes for many years.

For full pedigree of Lucy's Champion see opposite page and for picture see preceding page.

No. 2. Heifer.

CHAMPION'S HANDSOME LUCY, 224608, A. J. C. C.

Bred by Col. C. P. Le Cornu, St. Peter's, Island of Jersey.
Born February 8th, 1907.
Imported November 17th, 1908, by T. S. Cooper & Sons.

Solid color; black tongue and switch.
A beautiful heifer; lovely head; prominent eyes; thin, long, ewe neck; strong, straight back; broad hips, tail beautifully set, thin and long, with splendid switch; wedge-shaped body, of great depth and width; splendid withers thin, loose, mellow hide; grand udder development, with large and beautifully-placed teats.

"The making of a great cow."

Sire LUCY'S CHAMPION, P. 3731, H. C.

Is a son of the famous bull, "Oxford Lad," P. 3123, H. C., out of that great cow, "Lucy Belle," F. 8962, H. C., one of the best daughters ever sired by that great bull, Eminent 2d.

Lucy's Champion was imported by us, and sold in our May '08, auction sale to Mr. Harry Prentice, Worcester, Mass. Before shipment to America he won on the Island, sweepstakes at Western shows, April, 1900, champion at Western Shows, April, 1907.

In America he was First Champion and Grand Champion, and headed the First Prize Herd at the great shows held at Worcester, Mass., New York State Fair, held at Syracuse, and at Brockton, Mass., all in the fall of 1908. He certainly is a wonderful sire, and was rated by that veteran breeder, Mr. Francis LeBrocq, Island of Jersey, as the best bull they had in the Western Parishes for many years.

Fraceuse 2d,
P. 7881, H. C.

Bobby, P. 208, H. C., mentioned below, inherits through his dam the blood of Mr. Arthur's famous Roses. This family has won many honors in the show ring, and they were noted for their uniform quality and great ability as butter producers. They inherited these qualities from a long line of noted ancestors, among which are Orange Peel, 129; Clement, 61; Old Noble; Cowslip, 330; Rose, 339; Forget-me-not, 338—all of which were great prize winners and heavy butter-making cows, or the sires and dams of such. The blending of Coomassie and Young Rose blood has been through Bobby, productive of most excellent results, and their descendants have always found a ready sale and commanded high prices.

Oxford Lass,
P. 3582, C.
One of the most ce-
lebrated cows the
Island ever pro-
duced.

Some years ago while
on the Island, we
called to see Oxford
Lass, having been
told it would be hard
to find her equal in
Jersey. Nothing
could tempt the
owner to name a
price on her; and
he finally told us
that if he sold the
cow, he also would
have to leave the
Island. She has
milked as high as

28 quarts daily, and her milk veins and udder were a sight to see. We were so much impressed with her that we went to see her several times. Her daughter Oxford Ixia, tested on the public fair grounds, 2 lbs. 13 ozs. in 24 hours. These English butter tests are no guesswork, but are made by a committee who supervise them in the strictest manner. At 6 o'clock in the evening the cows are milked dry, and the milk is kept for 24 hours and then made into butter. This is done very carefully under the inspection of the judges, so that these tests are as much to be depended on as the official tests made on rare occasions by the American Jersey Cattle Club.

Dam of the famous bull Imp. Tormentor, 3533. (Sire of 46 in list.)

Bred January 16th, 1909, to Mona's Handsome Fern, 84194, A. J. C. C., a son of the famous Golden Fern's Lad, P. 2160, H. C., out of Eminent's Mona, 195791, A. J. C. C. that sold in our May, 1906, sale for \$1,700 to Hon. A. M. Bowman, and has tested 20 lbs. 2 ozs. of butter in 7 days. See front pages for full pedigree.

ROYAL MAJESTY, 79313, A. J. C. C.

(Majesty, P. 3523, H. C.)

First Illinois State Fair, 1908.

First Prize, Senior Champion, and Grand Champion, National Dairy Show, Chicago, 1908.

Sold in our Sale, May, 1908, to Mr. G. G. Council, Vandalia, Ill.

Royal Majesty is a son of the famous Oxford Lad, P. 3123, H. C. His dam is the well-known butter test cow, Oxford Ixia 3d, P. 8584, H. C. She won the following prizes in the public butter tests on the Island :

Silver Medal, October, 1903, 2 lbs. 1½ ozs., 235 days in milk.

Bronze Medal, May, 1904, 2 lbs. 15½ ozs., 94 days in milk, and a number of other butter test prizes. She was sold at a long price to Dr. Watney, England, who only buys big butter test cows.

Her dam, Oxford Ixia, P. 7100, H. C., No. 44 in sale, made the following tests :

Bronze Medal, March, 1900, 2 lbs. 8 ozs., 70 days in milk.

Certificate of Merit, May, 1900, 1 lb 15¼ ozs., 127 days in milk.

Certificate of Merit, May, 1901, 2 lbs. 1¼ ozs., 147 days in milk.

Certificate of Merit, March, 1902, 2 lbs. 5¼ ozs., 48 days in milk.

Certificate of Merit, May, 1902, 2 lbs. 6½ ozs., 99 days in milk.

Certificate of Merit, May, 1903, 2 lbs. 2¼ ozs., 49 days in milk.

Royal Majesty should have remained on the Island several years longer, then his value as a sire would have been more appreciated. Bred in such great butter families, Royal Majesty will in a few years be as popular as a successful sire as other great bulls that we have imported. His daughter, Majesty's Lady Houpla, was the highest priced animal in our 1907 importation. She sold in our May, 1908, sale for \$2,000 to Dr. C. E. Still, Kirksville, Mo.

(FOR REFERENCE ONLY.)

First Prize, Illinois State Fair, 1908.

First Prize, Senior Champion, and Grand Champion, National Dairy Show, Chicago, 1908.

Sold in our May, 1908, sale to Mr. G. G. Council, Vandalia, Ill.

Bred by Charles Mourant, St. Saviour, Island of Jersey.

Born February 28th, 1903

Imported October 8th, 1907, by T. S. Cooper & Sons.

Solid color, black tongue and switch.

The following description of Royal Majesty, by so well known an expert judge as Mr. Valency E. Fuller, will bear the closest criticism.

"By the side of Lucy's Champion stood Royal Majesty, a dark bull, with dappled stars. He is very properly named, for he is majestic in his carriage. He has just as beautiful a head as his stable companion, which is exceedingly dished, with large, prominent eyes. His neck is long and thin, as is his wither, which is wedge-shaped looking from the top. He has an excellent rump and loins, and is strong in the back. His body is very deep, especially at the flank and he is well ribbed. He is wonderfully short legged, his tail is well set on, long and thin; his hide shines like satin, he is very deep, a bull of great constitution, yet exceedingly rich, very stately in carriage, with an upright head, a bull who shows unusually well.

Dam of Blue Belle 6th and 7th and of Blue Belle's Handsome Fox. Also dam of Blue Belle's Golden Fern, 69196, that sold as a calf for \$3,000. Blue Belle has the distinction of being "courted" by the best breeders in England and America, among them lords and American millionaires, and the day she left the Island it was one of sorrow for those who loved her so well, as she had brought them many pounds sterling, not only for her offspring, but for her gift-edged butter which sold weekly at the top price in the St. Helier market.

Finance, P. 4611, C.

She has to her credit a public fair test of 2 lbs. 10 ozs. in 21 hours, and a milk record of 55 lbs. per day at the fair, and 61 lbs. at her home. She is one of eight daughters from the cow "Interest," all of which had milk and butter tests.

Golden Fern's Lad, P. 2160, H. C. C.
Judging by what the sons of Golden Fern's Lad are doing on the Island and in America, and best of all the great prize butter tests that the daughters are making their great popularity among Island English and American breeders convinces us that Golden Fern's Lad is the most prepotent, most distinguished, and pre-eminent Jersey Bull the world has ever produced.
His sons and daughters have been winning Champion prizes in the Show Rings from the Atlantic to the Pacific.
If his son, Golden Jolly, was living and could be sold in our next sale, with his daughters \$15,000 would not be a bad investment.

Due to calve July 8th, 1909, by the great butter bull, "Viola's Golden Jolly," 79311, A. J. C. C. He is sired by the famous bull, Golden Jolly, P. 2921, H. C., and has for a dam the most sensational cow now on the Island or in England—it is Lady Viola, P. 8163, H. C. First over Jersey, 1901. Certificate of Merit in Butter Test, May, 1901, yield, 2 lbs. 12 ozs., 50 days in milk. First over Jersey and winner of the Theatre Cup, May, 1905. First prize, Sweepstakes and Champion, St. Saviour and Grouville Shows, 1905. First over England, wherever exhibited, 1906 and 1907. Champion over all England, 1907. First prize in Butter Test Cows. Her dam is Bagatelle 2d, P. 6561, H. C. Full sister to Golden Lad's Fawn Duchess, 166538, who tested 23 lbs. 6 ozs. in 7 days. Lady Viola is dam of Noble of Oaklands, P. 3909, H. C. First prize St. Saviour Show, 1907. Owned by Mr. John A. Perce, Island of Jersey. Dam of Miss Viola, P. 9614, H. C. Certificate of Merit in Butter Test, May, 1905, yield, 2 lbs. 15 ozs., 39 days in milk, when 1 year, 1 month old. Dam of Willoh's Rosy, P. 10411, H. C. Winner of Parish prize, August, 1901. Certificate of Merit in Butter Test, May, 1906, yield, 3 lbs., 38 days in milk, when 1 year, 1 month old. Dam of Poppy Viola, P. 10902, H. C., now named Golden Jolly's Lady Viola, 203699, A. J. C. C. Winner of Bronze Medal in Butter Test, October, 1905, yield, 1 lb. 15 ozs., 159 days in milk, after dropping her first calf, being 30 months old. Sold in our 1907 sale to Mr. J. M. Overton, Nashville, Tenn., and sold in his auction sale, May, 1908, for \$2,550. If the calf that she carries is a bull, it will be worth a mint.

FAIRY GLEN, P. 9178, H. C.

Dam of Raleigh's Fairy Boy, No. 22 in sale.

A most remarkable cow. She is considered by many judges as the most perfect cow remaining on the Island. She has milked 24 quarts daily and has won the following prizes :

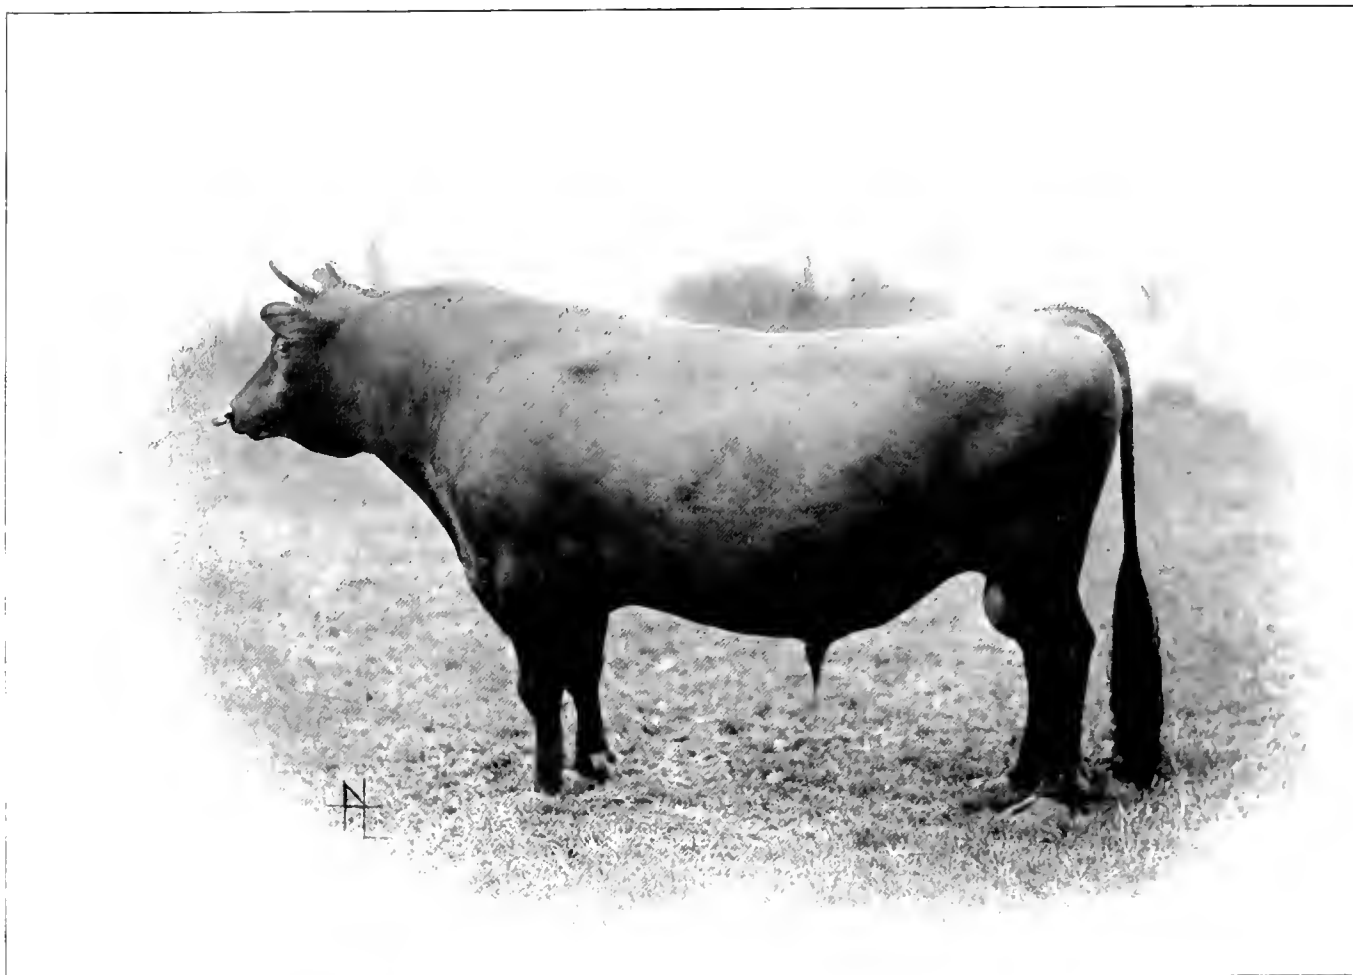

First over Jersey, May, 1905.

First over Jersey, August, 1905.

Winner, Blythwood Challenge Bowl, August, 1905.

First over Jersey, May, 1906.

Her sire, Orlando, P. 2533, H. C., is the sire of a remarkable lot of cows of wonderful conformation and dairy quality. Her dam, Brown Fairy, F. 7819, C., was a splendid cow, milking as high as 22 quarts daily. She sold in our May, '01, sale for \$1,200. She traces to the famous Mabel 2d, F. 889, H. C., whose daughter, Mabel 4th, sold in our May, '83, sale for \$2,100.

RALEIGH'S FAIRY BOY, 83767, A. J. C. C.

(P. 3851, H. C.)

First prize winner over the Island, April, 1908, in a very "hot" and interesting class.

Raleigh's Fairy Boy is a son of Raleigh, P. 3273, H. C., a son of Eminent 2d, P. 2532, H. C., a son of Golden Fern's Lad, P. 2160. Isn't it a wonderful line of great and famous sires? What else would you want that's better? If you want a truly great bull, here he is.

The expert judge, Mr. Valency E. Fuller, pronounces Raleigh's Fairy Boy the best bull we ever imported. The following is what he wrote about him in the *Practical Dairyman* after seeing our 1907 importation:

"We saw Raleigh's Fairy Boy, but he looks like another bull than the one we saw in quarantine. We really did not have a good view of him then, as he was away up in the corner of a box stall. We realized that he was a tremendously deep bull but did not fully appreciate his great length or his showy qualities. He is a wonderfully showy fellow and if he does not prove another 'champion' for next year's shows, we are greatly mistaken. The Coopers are famous for bringing out and offering for public competition at their sales, bulls that prove themselves 'champions' in the show ring and this fact must have been in mind when this bull was purchased. We have already referred to his superb breeding. We were shown another daughter of Fairy Boy that we had not seen, dropped April 1st, 1907, out of Leda's Golden Queen, 11641. She is like all the other daughters of this bull, a grand one in every way, showing great constitution, long body, straight back, great paunch and wonderful udder development. If the daughters of this bull fulfill their early promise, they will prove sensational cows. I told Mr. Cooper that I believed he had in Raleigh's Fairy Boy the greatest bull he had ever brought out, as a breeder."

The following extracts are taken from two letters written to the *Jersey Bulletin* by two well-known Jersey breeders—Mr. W. R. Spann, Dallas, Texas, and Mr. J. E. Dodge, Narberth, Pa.:

"Fairy Boy (by Raleigh and out of Fairy Glen) is just about an ideal bull in conformation, and his young daughters give promise of that beauty and dairy quality that 'fills the eye'." —W. R. Spann.

"Six daughters of Raleigh's Fairy Boy that make you envious—these fancy heifers and a number I saw at Cooper's are evidence that Raleigh's Fairy Boy will be a 'good fairy' to his fortunate owner, and anyone should be proud to own such a string of great heifers." —J. E. Dodge.

Judging by what the sons of "Golden Fern's Lad" are doing on the Island and in America, and best of all, the great public butter tests that the daughters are making, their great popularity among Island, England and American breeders, convinces us that "Golden Fern's Lad" is the most prepotent, most distinguished, and pre-eminent Jersey Bull the world has ever produced.

His sons and daughters have been winning Champion prizes in the Show Rings from the Atlantic to the Pacific.
If his son, "Golden Jolly," was living and could be sold in our next sale, with his daughters, \$15,000 would not be a bad investment.

T. S. COOPER & SONS' AUCTION SALE OF JERSEY CATTLE, MAY 31, 1909.

No. 23. Heifer.

MABEL 43d, P. 8611, H. C.

(Dam of Heifer, Mabel's Fairy Maid, 214016, A. J. C. C.)

First Prize and Sweepstakes Winner at Grouville and St. Saviour Shows, '06. Tested 2 lbs. 12 ozs. butter in 24 hours. She is not only a great dairy cow, but has produced some remarkable animals, one of which is the celebrated bull, "Mabel's Raleigh," P. 3722, H. C., that Mr. Spann predicted would bring \$15,000 to \$20,000 at auction. We imported Mabel 43d, but were unfortunate in losing her, owing to an attack of milk fever. See opposite page pedigree of Raleigh's Fairy Boy, who is sire of Mabel's Fairy Maid.

Bred by Mr. Wm. J. Lahey (Father of the great Fontaine family), Grouville, Island of Jersey.
Born August 17th, 1907.
Imported October 8th, 1907 by T. S. Cooper & Sons.

An exceedingly handsome heifer; lovely head, with short incurving horns; large, prominent eyes; broad forehead; dished face; strong, straight back; elegant loins; broad hips; thin, long tail; loose, mellow hide; grand wedge-shaped body of great depth and width; remarkable udder development, running way to the front, with loose folds in the rear; large and beautifully-placed teats.

In the pedigree of "Mabel's Fairy Maid," from beginning to end, will be found the very "cream" of Island breeding. We doubt if another animal in this entire sale can show in its pedigree such rich breeding and so large a number of Highly Commended animals. What a chance to procure a "Corner Stone" upon which to build a great herd and from which nothing but great results and pleasure can be expected.

Golden Fern's Lad, P. 2160, H. C.

Judging by what the sons of "Golden Fern's Lad" are doing on the Island and in America, and best of all, the great public butter tests that the daughters are making, their great popularity among Island, England and American breeders, convinces us that "Golden Fern's Lad" is the most prepotent, most distinguished, and pre-eminent Jersey Bull the world has ever produced.

His sons and daughters have been winning Champion prizes in the Show Rings from the Atlantic to the Pacific. If his son, "Golden Jolly," was living and could be sold in our next sale, with his daughters, \$15,000 would not be a bad investment.

1st over Jer., August 1906, in a very large class.

For extended pedigree see No. 29.

Golden Fern's Lad,
P. 2160, H. C.

The most celebrated bull the Island of Jersey has ever produced. His son, Flying Fox, sold in our May, '02, sale for \$7,500. His son, Eminent 2d, sold in our '05 auction sale for \$10,000.

His daughter, Golden Fern's Sensation, won 2d prize at the great St. Louis Show '04, and was sold at auction for \$2,250.

His daughter, Golden Sultane, won third prize at the great St. Louis Show, Sept., 1904, and sold in the ring for \$2,350.

Ten of his get have been sold at an average of \$4,560 each. His five tested daughters averaged 18 lbs. 5½ ozs.

His two best daughters in the public butter test are Freedom, 2 lbs. 10 ozs. butter in 24 hrs. at the T. Ring Show, England, being 140 days in milk.

Gold Mine won Gold Medal, Tunbridge Wells, England, 2 lbs. 7 ozs. butter in 24 hours, being in milk 150 days.

His son Eminent 2d, has 18 tested daughters, averaging 19 lbs. 4½ ozs. each, and many more to come.

His son, Flying Fox, has five tested daughters averaging 17 lbs. 4 ozs.

His son, Carnation's Fern Lad, has six tested daughters averaging 16 lbs. 1½ ozs.

"Blue Belle" is a typical dairy cow from the tip of her nose to the end of her switch. She swings a very handsome and finely polished head, with large, sparkling, prominent eyes, broad forehead; dished face; rich, amber horns; broad muzzle with large nostrils; thin, long neck; best of withers; straight, long back; broad hips; beautifully-set, thin, long, whip-tail with grand switch; grand, wedge-shaped body of great depth and width; neat in bone, skin as soft and thin as a mole's; milk veins so large and tortuous that one prominent breeder when he saw her, thought she had a rupture. Her udder is absolutely perfect, and when fresh, without any exception, the largest we have ever seen on any cow, and when milked out, it can be taken in two hands. Teats large enough for any one, and most beautifully placed.

"Blue Belle" is one of the greatest dairy cows we have ever owned. As a mother of a great reproducing butter family, she is way up at the top of the ladder.

GOLDEN JOLLY OF ST. PETER, 79316, A. J. C. C.

A splendid son of Golden Jolly, out of Mon Plaisir's Queen, P. 9344, H. C., a grand dairy cow and daughter of the famous bull, Mon Plaisir, P. 2548, H. C. She has milked as high as 24 quarts daily, and has won the following prizes: Parish Prize, August, 1901; Parish Prize, May, 1904; Third over Jersey in a very large class, August, 1907.

Her sire, Mon Plaisir, P. 2548, H. C., is one of the great bulls which we imported. He was sold at our May, 1901, sale for \$3,500 to Hon. H. N. Higginbotham, Joliet, Ill. He won First Prize over the Island and has won a large number of prizes at the western fairs.

He sired a remarkable lot of animals, amongst them, the phenomenal cow, Baron's Fanny, who made the record test of 2 lbs. 11 $\frac{1}{4}$ ozs. in 24 hours, when 80 days in milk and only three years old.

Another great daughter of his is Mon Plaisir's Fanny, who won a Certificate of Merit in the Public Island Butter Test, testing 1 lb. 11 $\frac{1}{4}$ ozs., when 211 days in milk. She is the dam of Aristocratic Fanny, who tested 2 lbs. 11 $\frac{1}{4}$ ozs., 80 days in milk, when three years old; also of Gipsy's Fanny, who won the Silver Medal at the October Butter Test, 1908, testing 2 lbs. 5 ozs., when 184 days in milk.

Mon Plaisir is also the sire of Fancy's Pioneer, P. 3195, H. C., sire of our great cow, Mon Plaisir's Buttercup, one of the "plums" of our sale. She won Sweepstakes at the Three-parish Show, 1908, and Silver Medal in the Public Butter Test, 1907, testing 2 lbs. 9 $\frac{3}{4}$ ozs., 147 days in milk.

No. 37. Bull.

GOLDEN JOLLY OF ST. PETER, 79316, A. J. C. C.

(Jolly Jack, P. 3888, H. C.)

Bred by William J. Amy, St. Peter, Island of Jersey.

Born April 1st, 1905.

Imported October 8th, 1907, by T. S. Cooper & Sons.

Solid color; black tongue and switch.

The following description of Golden Jolly of St. Peter, by such a well known expert as Mr. W. R. Spanna, will bear the closest criticism:

"A bull that held my attention is Golden Jolly of St. Peter. He is so commanding that it is impossible not to notice him. His splendid head and eyes indicate the prepotent power that is seen in the quality and finish of his calves. With great length and large barrel, well sprung, broad, flat ribs, he has the capacity for taking care of large quantities of food that gives him that strength of constitution so essential for a great breeding animal. He has the strong loin, high, long, straight rump and perfect tail setting without which no bull can transmit this, so desirable, conformation to his daughters. You can not look at this bull without the feeling that he will repeat the record of Golden Fern's Lad. Mr. Cooper said it was like 'pulling front teeth' to part with Golden Jolly of St. Peter, but it had always been his practice to sell such outstanding animals to make his sales a success."

Due to calve October 21st, 1909, by Viola's Golden Fern, 77393, A. J. C. C., a son of Golden Fern's Lad, out of the great Island cow, Miss Viola, 195796, who has a public Island butter test of 2 lbs. 15 ozs. She is a daughter of Lady Viola, the highest priced and most sensational cow now in England or on the Island. A bull calf from such a combination would be worth having.

OXFORD LAD'S LUCY, 213913, A. J. C. C.

(Lucy 18th, P. 10586, H. C.)

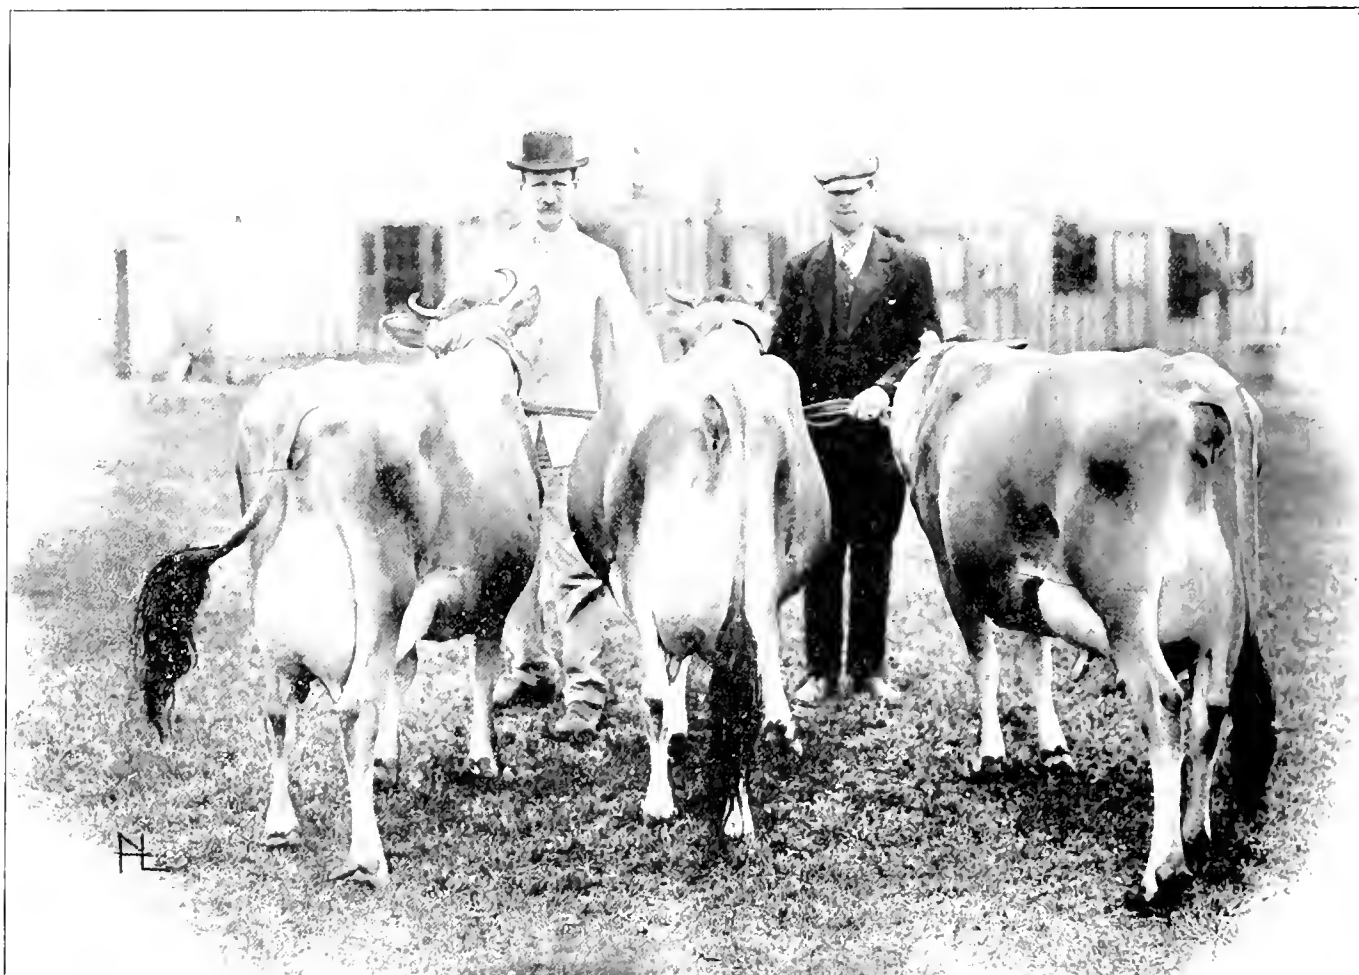

(Oxford Lad's Lucy, No. 38 in sale, is the first cow to the left of the picture. The group shown won the President's Cup at the Island Show, August, 1907.)

She won First over Jersey, Reserve for Blythwood Challenge Bowl, and Best cow in group Winning President's Cup, August, 1907.

Notice that all her dams have won Medals and Certificates of Merit in the Public Island Butter Tests, or Prizes over the Island.

Oxford Lad's Lucy, a beautiful daughter of the famous bull, Oxford Lad, is one of the very best cows to be offered in our sale. She is magnificently bred, a first prize winner over the Island, and all that one could wish for. She is due to calve October 21, 1909, by Viola's Golden Fern, 77393, A. J. C. C., a son of Golden Fern's Lad, P. 2160, H. C., out of the great Island cow, Miss Viola, 195796, who has a public butter test of 2 lbs. 15 ozs. She is a daughter of Lady Viola, the highest priced and most sensational cow now in England. A bull calf from such a combination would be worth having.

Oxford Lad's Lucy is the dam of the coming sire, Oxford Majesty, P. 4057, H. C., second over Jersey as best bull bred by the exhibitor, August, 1908.

Three daughters of Oxford Lad, P. 3123, H. C. They are all milking over 20 quarts daily.

The cow to the left is Oxford's Fontaine, 224580, A. J. C. C. (Gamboge's Pride 7th, 10517, H. C.—No. 41 in sale.) She won a Certificate of Merit in Public Island Butter Test, May, 1907—2 lbs. 1 $\frac{1}{2}$ oz., 120 days in milk.

A fact worth mentioning about Oxford's Fontaine is that all her dams are Highly Commended cows. She is a daughter of Fontaine's Oxford Pride, 187430, A. J. C. C., third prize in Public Butter Test—2 lbs. 7 $\frac{3}{4}$ ozs., 48 days in milk; first prize over the Island, August, 1904; Blythwood Bowl winner, August, 1904. She was sold in our May, 1905, sale for \$2,500.

The cow in the middle is Oxford Lad's Pretty Duchess, 224585, A. J. C. C. (Oxford Una, P. 11402, H. C.—No. 39 in sale.) A very beautiful cow and magnificently bred. She is a full sister to Oxford's Grey Una, sold in our May, 1907, sale to the Hon. Robert Fleming, Toronto, Canada, and milked 20 quarts daily with her first calf.

The cow to the right is Flora's Oxford Belle, 224590, A. J. C. C. (P. 11546, C.)—No. 42 in sale. A splendid cow and a wonderfully heavy milker. She is a descendant of a splendid family of cows, all of which were Highly Commended.

Expected to be
bred before day of
sale.

No. 46. Bull. NOBLE PRINCE OF ST. MARTIN, 83768, A. J. C. C.

(Distinction's Noble, P. 4157, H. C.)

Bred by H. Bendell, St. Martin Island of Jersey.
Born April 17th, 1907.

Imported October 6th, 1908, by T. S. Cooper & Sons.

One of the handsomest young bulls in the "Linden Grove" herd. He carries a beautiful head, with large, sparkling eyes, incurving, short, amber horns; thin neck; long, strong straight back; best of loins; broad hips, thin tail, with magnificent switch, neat in bone, very thin, loose, mellow hide; wide and deep body; large and beautifully-placed rudimentaries.

A very aristocratic and most fashionably bred bull.

Noble Prince of St. Martin is sired by the famous bull,

NOBLE OF OAKLANDS, P. 3909, H. C.,

whose pedigree appears in full below.

The dam of Noble Prince of St. Martin is Distinction's Queen, P. 11732, H. C., and her pedigree appears on next page in full.

Bull.

NOBLE OF OAKLANDS, P. 3909, H. C.

FIRST PRIZE, ST. SAVIOUR, 1907.

Bred and owned by Mr. John A. Perree, Oaklands, St. Saviour, Island of Jersey.

The most popular bull now on the Island. We have been informed by reliable parties that Mr. Perree has refused \$10,000 for him.

A fact worth mentioning is that he royal the first, second and third prize heifers at the Royal Show, on the Island, August, 1908, something that has never before been credited to any bull. That alone tells the tale what can be expected of him, and his great popularity on the Island is evidence enough that breeders have great faith in his prepotency.

Sire

BLUE BELLE'S

BLUE FOX,

P. 3633, H. C.

A very promising sire and great show bull. He was sold at Mr. D. S. Williams' sale, Nashville, Tenn., Dec., '07, to Mr. Harry Prentice, Worcester, Mass., for \$1,025, who was offered a large advance in price right after the sale.

He was shown at the Nashville, Tenn. show, Oct. '07, in a class where the Champion bull of the year was shown and Prof. Scovell, who had handed out the Champion ribbons at the show, was free in saying, "had he been judge at Nashville, Blue Belle's Blue Fox would have been Champion."

Dam

LADY VIOLA,

P. 8463, H. C.

DISTINCTION'S QUEEN, P. 11732, H. C.

First Prize Winner over the Island, August, '06.

Also Winner of the Blythwood Bowl, beating with ease, all mature cows. She is one of the best daughters of Oxford Lad, P. 3123, H. C., and is held at \$2,500. We give her tabulated pedigree below. She is dam of the very handsome bull, Distinction's Noble, No. 46, preceding page.

Sire **OXFORD LAD,** **P. 3123, H. C.**

1st prize St. Saviour Show, '02.
Sweepstakes over St. Saviour and Gronville Shows, April, 1903.
1st State's prize over the Island, April, 1903.
Champion St. Saviour and Gronville Shows, 1905.
Sire of many celebrated animals. His two sons, Majesty, P. 3523, H. C., and Lucy's Champion, P. 3731, H. C., both sold at our May, '08, sale; covered themselves with glory in the big show rings in the fall of '08, winning First, Champion, and Grand Champion wherever shown.
Nine daughters by Oxford Lad, at the Public Butter Test, on the Island of Jersey, May, '08, tested within a fraction of an average of 2 lbs. of butter in 24 hours, 110 days in milk. All winning Certificate of Merit, this is a larger number than have ever won, sired by one bull, and many more to come.

He also sired the sensational bull, "Stockwell," that sold in our May, '07, sale for \$11,500.

His son, Sam Loates, sired Reindeer, Bronze Medal winner, public butter test, October, 1907, 1 lb. 13½ ozs., 161 days in milk.

Oxford Lass, P. 3582, C.
One of the most celebrated cows the Island ever produced. She was never tested for butter, but milked as high as 28 qts. daily, and her milk veins were a sight to see. In ten years from now, we will realize her great worth as a dairy cow, through her sons and daughters.

Golden Fern's Lad, P. 2160, H. C.
Judging by what the sons of "Golden Fern's Lad" are doing on the Island and in America, and best of all, the great public butter tests that the daughters are making, their great popularity among Island, England and American breeders, convinces us that "Golden Fern's Lad" is the most prepotent, most distinguished and pre-eminent Jersey bull that the world has ever produced. His sons and daughters have been winning Champion Prizes in the Show Rings last fall, from the Atlantic to the Pacific.

Oxford Daisy, F. 6816, H. C.
A remarkable cow.

Bobby, P. 208, H. C., mentioned in the dam's pedigree, inherits through his dam the blood of Mr. Arthur's famous Roses. This family has won many honors in the show ring, and they are noted for their uniform quality and great ability as butter producers. They inherit these qualities from a long line of noted ancestors, among which are Orange Peel, 129; Clement, 61; old Noble; Cowslip, 330; Rose, 339; Forget-me-not, 338—all of which were great prize winners and heavy butter-making cows, or the sires and dams of such. The blending of Coomassie and Young Rose blood has been, through Bobby, productive of most excellent results, and their descendants have always found a ready sale and commanded high prices.

An exceedingly handsome heifer; beautiful head, with large, prominent eyes, broad forehead, strong, straight back; splendid loins and withers; broad hips, thin, long tail, with magnificent switch, grand wedge shaped body of remarkable depth and width, very thin, mellow hude, magnificent udder development, with large and beautifully placed teats.

The making of a grand cow

Sire

NOBLE OF OAKLANDS,
P. 3909, H. C.

Bred and owned by Mr. John A. Perree, Oaklands, St. Saviour, Island of Jersey.

The most popular bull now on the Island. We have been informed by reliable parties that Mr. Perree has refused \$10,000 for him.

A fact worth mentioning about Noble of Oaklands is that he sired the first, second and third prize heifers at the Royal Show, Island of Jersey, Aug. '08, something that has never before been credited to any bull. That alone tells the tale of what can be expected of him; and his great popularity on the Island is evidence enough that breeders have great faith in his prepotency.

WONDER'S PRIDE,
P. 11957, H. C.

A grand dairy cow. She has good reason for being so, as it can be seen by her pedigree: that her dam, grandam, and great grandam are all highly commended cows.

Due to calve May 21st, 1909, by the very promising young bull, Noble's Jolly Sultan, P. 4156, H. C. He is sired by Noble of Oaklands, P. 3909, H. C., out of one of the very few Sultanes that are left, Jolly Sultan, P. 11003, H. C., a daughter of Young Sultane, P. 2895, by Golden Jolly, P. 2921, H. C. The notoriety attained by this famous family is a sufficient guarantee for the future of this splendid youngster.

Blue Belle's Blue Fox,
P. 3633, H. C.

"Blue Belle" is a typical dairy cow from the tip of her nose to the end of her switch. She swings a very handsome and finely polished head, with large, sparkling, prominent eyes; broad forehead; dished face; rich, amber horns; broad nozzle with large nostrils; thin, long neck; best of withers; straight, long back; broad hips; beautifully-set, thin, long, whip-tail, with grand switch; grand, wedge-shaped body of great depth and width; neat in bone; skin as soft and thin as a mole's; milk veins so large and tortuous that one prominent breeder when he saw her, thought she had a rupture. Her udder is absolutely perfect, and when fresh, without any exception, the largest we have ever seen on any cow, and when milked out, it can be taken in two hands. Teats large enough for any one, and most beautifully placed.

"Blue Belle" is one of the greatest dairy cows we have ever owned. As a mother of a great reproducing butter family, she is way up at the top of the ladder.

Bobby, P. 208, H. C., inherits through his dam the blood of Mr. Arthur's famous Roses. This family has won many honors in the show ring, and they are noted for their uniform quality and great ability as butter producers. They inherit these qualities from a long line of noted ancestors, among which are Orange Peel, 129; Clement, 61; Old Noble; Cowslip, 330; Rose, 339. Forget-me not, 338—all of which were great prize winners and heavy butter-making cows, or the sires and dams of such. The blending of Coomassie and Young Rose blood has been, through Bobby, productive of most excellent results, and their descendants have always found a ready sale and commanded high prices.

Nero's get have earned an enviable reputation in the show ring, which has been supplemented by creditable butter tests. At the Royal Jersey Show in 1883, his get won the following prizes: Pomona, first prize in class of heifers in calf, and Cream of Jersey, third in class of heifers in milk; Royal Queen, first prize in heifer class at St. John Show, and Nero-du-Coin, second prize in class of yearling bulls at the Jubilee Show. Bred and owned by Mr. John A. Perree, Oaklands, St. Saviour, Island of Jersey.

The most popular bull now on the Island. We have been informed by reliable parties that Mr. Perree has refused \$10,000 for him.

A fact worth mentioning about Noble of Oaklands is that he sired the first, second and third prize heifers at the Royal Show, Island of Jersey, Aug., '08, something that has never before been credited to any bull. That alone tells the tale of what can be expected of him; and his great popularity on the Island is evidence enough that breeders have great faith in his prepotency.

NOBLE OF ST. MARY, 79671, A. J. C. C.

Bred by J. S. Beaucie, St. Martin, Island of Jersey.
Born March 20th, 1908.
Imported (in dam), October 8th, 1907, by T. S. Cooper & Sons.

Spot on forehead, white on belly at navel, basket, right fore and both hind legs, tongue and switch white.

Noble of St. Mary, like his brother, Noble Carnation (No. 52 in this sale), is a bull of great dairy quality and both have good reason for being so, as both sire and dams are bred in the very best milk channels. Both have lovely heads, large, prominent eyes, thin, long neck, splendid withers, broad hips, slim, well-set tails, great panaches of wedge-shaped conformation, loose, mellow hide.

Worthy to head any herd

Cow on I. of Jersey.

Golden Lad, P. 1242, sired the bulls winning 1st prize over the Island of Jersey from 1898 to 1899 inclusive, also those winning 1st prize in 1891 and 1892, or, in other words, the bulls winning 1st prize from 1891 up to 1900, with the exception of two years, when they won 2d and 3d prizes, have been his get. One of his sons, "Pioneer," won first over Jersey in two successive years, 1891 and 1892. He also sired the bulls winning the 2d Royal England prize in 1898, and the Reserve Royal England in 1898, besides numerous other prize takers at the Island Parochial and English County Shows.

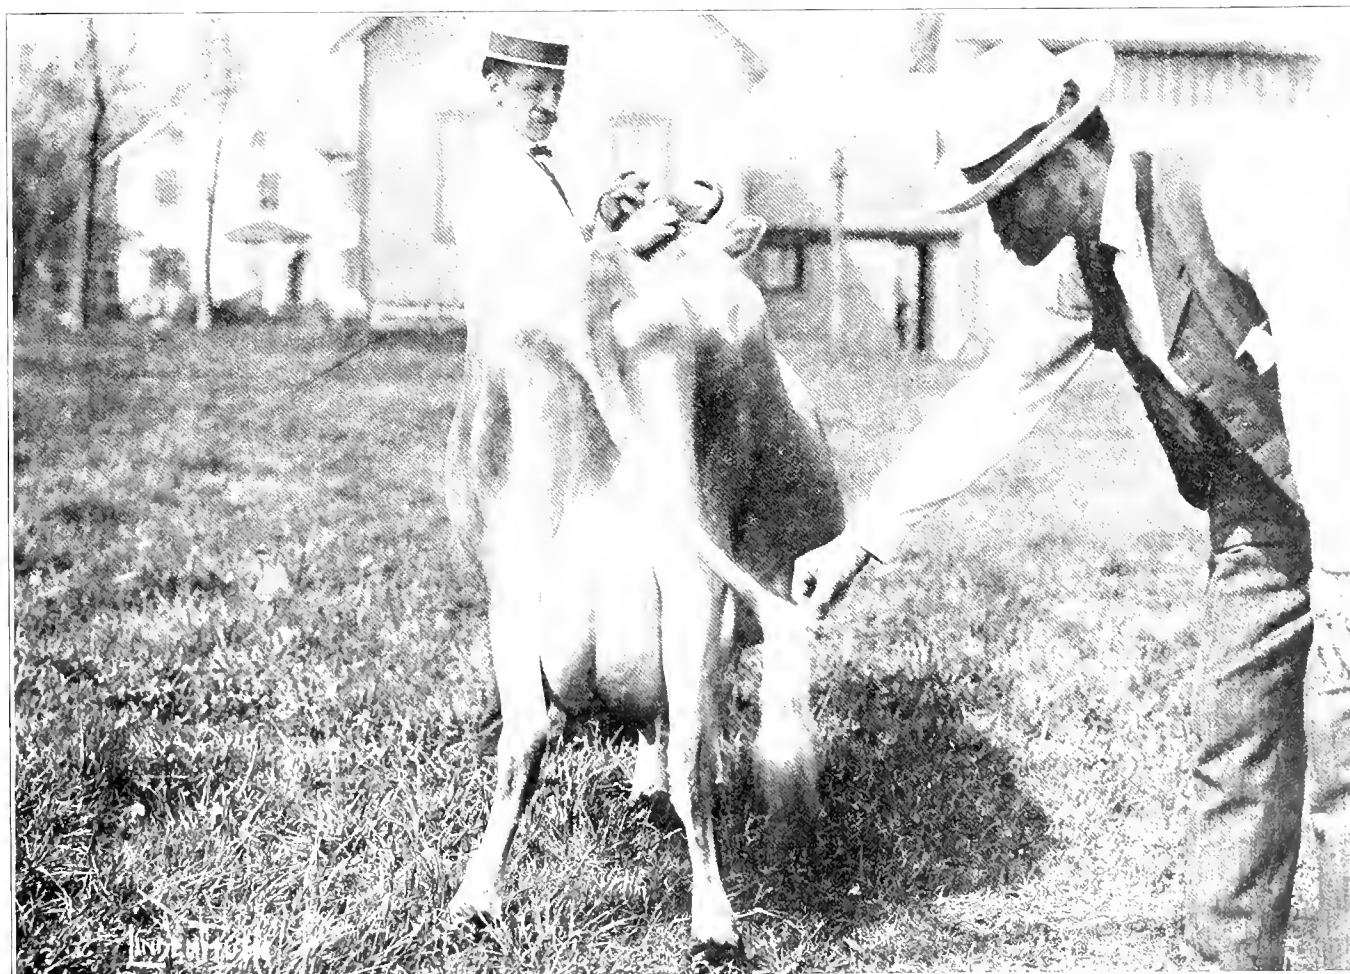

He has also sired the cows and heifers winning 1st prize over all Jersey, up to 1900, with the exception of one year since 1892, the winner of the Blythwood Challenge Cup, Royal England Shows, and the Golden Reserve prize over Jersey in 1894. In the same year, his daughter, "Stylish Lady," won 1st and Championship over England, 1st Reserve for Champion, Sussex, England, and the Championship at the Tring Show. In 1895 his get took four first prizes over Jersey, as well as the 1st prize at Grayville, the 1st prize and Championship over the Parishes, St. Mary, the first prize and Championship at Sussex, England, the 1st prize at the London Dairy Show; the Championship over Jersey, and the Reserve prize in the Royal England Show.

In 1896, besides the winners of the 1st prize over Jersey, his cows and heifers won the 1st prize at the Royal England Show, the 1st at the Bath and West England Show, and the Reserve Champion prize at the Royal Counties Show. The prizes won by his daughters in 1897, besides the 1st over Jersey, were as follows: The 1st over England at the Bath and West Show, the Reserve Champion Blythwood Cup, the 1st prize at the London Dairy Show and the Essex Show, the Reserve prize at the Royal England Show, the 1st at the Bray Show, and the Tunbridge Wells Show, as well as the Championship Cup over Jersey.

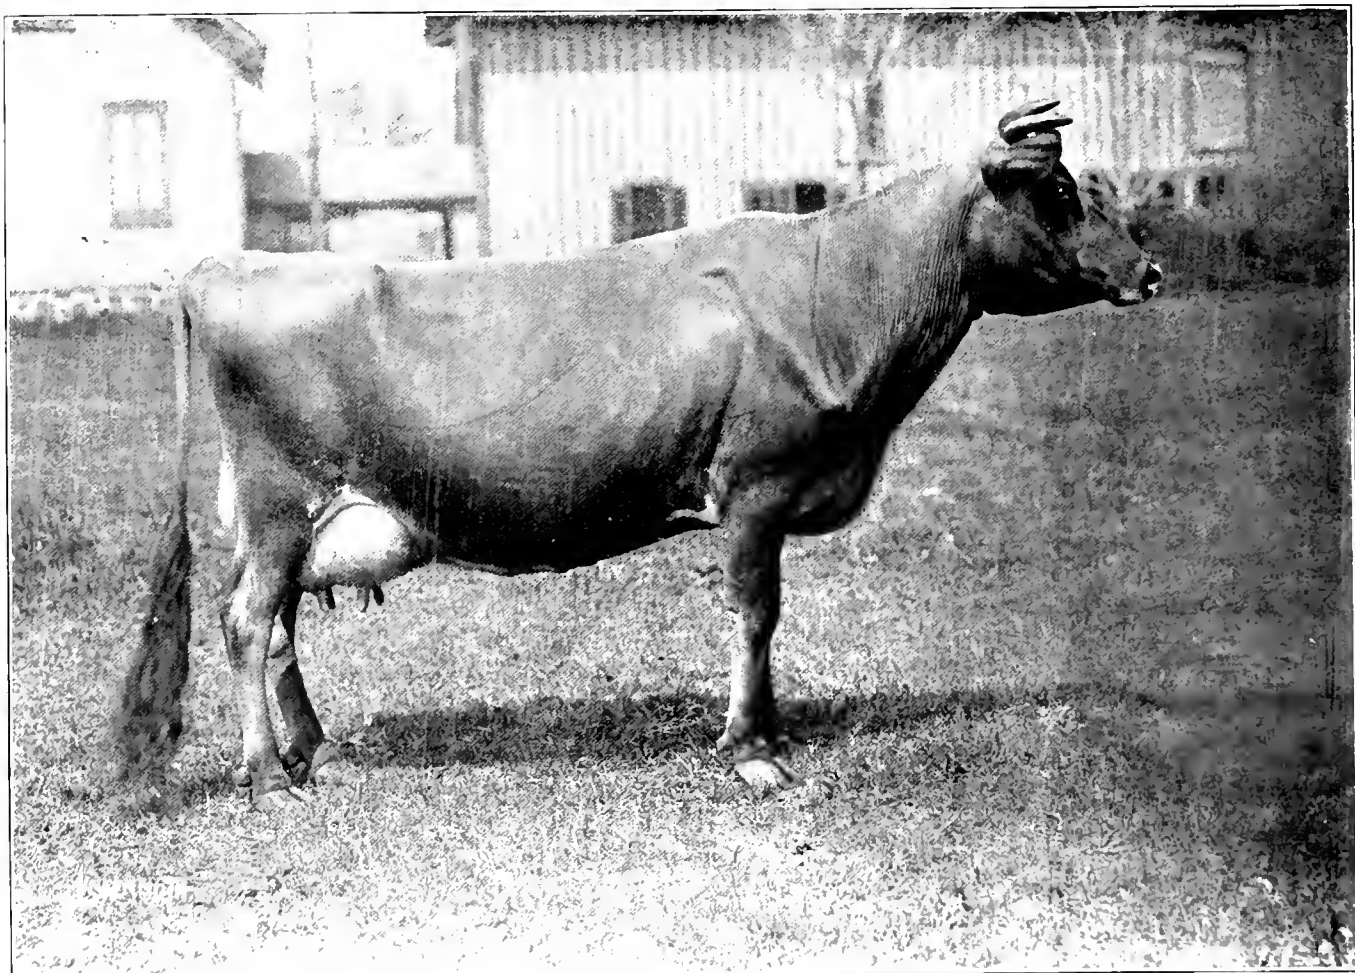

In 1898, cows and heifers sired by him won the Reserve Championship, the 1st over England, the 1st at the Royal England Show, the same at the Essex Show, and the Reserve and H. C. at the Royal Show.

His progeny covered themselves with glory at the Tring Show in 1899, by taking 1st prize in an entry of 26 cows, and the 1st prize at the same show for 3 year olds in milk.

The first prize cow over the Island at the August, 1900, show, Irene, was sired by "Golden Lad." The same cow won the Blythwood Bowl, '01.

MONA'S HANDSOME FERN, 84194, A. J. C. C.

Sired by the celebrated bull, "GOLDEN FERN'S LAD," 65300, A. J. C. C. (See below.)

Bred by T. S. Cooper & Sons

Born June 5th, 1907

Solid color, except bristlet, belly, hind legs, tongue and switch white

A very handsome bull, carries a nice head, lofty carriage, great length, splendid loins and withers, broad hips, thin, long tail, with magnificent switch, skin thin, loose and as soft as a mole's, splendid body, large and beautifully placed rudimentaries, very neat in bone.

A grand individual and worthy to head any herd in the country.

He has for a dam the great cow, EMINENT'S MONA, 195791, A. J. C. C., that tested 20 lbs. 2 ozs., in 7 days. (See breeding, next page.) She sold in our '06 sale to the Hon. A. M. Bowman for \$1,700. She is a daughter of the celebrated bull, Eminent 2d, that sold in our '05 auction sale for \$10,000. He is now in the great herd of Mr. A. M. Bowman. Eighteen of his daughters averaged 19 lbs. 4 1/3 ozs., with the churn, tested by eight different owners. MONA'S HANDSOME FERN has for a dam just such a cow from which I want to select a bull for our own herd. Examine the three pictures of Mona on following pages that alone tell the tale.—T. S. C.

GOLDEN FERN'S LAD, 65300, A. J. C. C.

(FOR REFERENCE ONLY.)

(P. 2160, Highly Commended, Jersey Herd Book. 6236, English Herd Book.)

FIRST PRIZE AND CHAMPION AT NORTH CLUB SHOW, 1896 and 1897.

Bred by Philip J. Abier, St. Martin, Island of Jersey.

Born May 17th, 1894.

Imported and sold at public auction, May 13th, 1903, when he was secured for exclusive use in the "Linden Grove" Herd, at \$2,250, being at that time (within four days) nine years of age.

Died here at "Linden Grove," May 29th, 1908.

Sire

BOYLE,

P. 1559, H. C.

Sire of the celebrated bull, Golden Fern's Lad, P. 2160, H. C. Fontaine 7th, 8th and 9th, all prize winners over the Island. Fontaine 9th, milked over 9,000 lbs. milk in a year, 11 lbs 4 ozs. in 24 hours, from which 2 lbs 10 ozs. of butter was made. "Boyle" also sired the great cow, "Speckled Band," dam of the wonderful cow, "Nursie," that made the phenomenal record of 2 lbs 7 1/2 ozs. of butter in 24 hours in the public butter test, after being in milk 300 days, and within 90 days of calving. She sold in our May, '07, sale for \$2,200 to Mr. A. B. Lewis.

During our visit to the Island of Jersey, for a number of years, it has always been our great pleasure to examine the daughters of the famous bull Boyle. They were of great size, carrying beautiful heads, thin, long necks, strong, straight backs, the very best of loins, broad hips, sharp withers, "bread baskets" wide and deep, which alone told the tale. The very best of udders and teats of good size and beautifully placed.

From personal observation while on the Island of Jersey, I found the great prepotency of the Wolseley-Sultane blood demonstrated in a number of cases. As a matter of fact wherever I found an exceptionally good cow or heifer the pedigree was sure to run back to Wolseley or Count Wolseley, and through him to the Sultane strain. The nick of Wolseley-Sultane blood was a particularly happy one; and if the Island people were as careful to test their cows as are the English they would obtain quite as good, if not better, results in my judgment, and Wolseley's great prepotency as a sire would be proved. I can state from my own observation that on the Public

Fair Grounds at the Tring Show, England, 1899, the cow, Sundew 4th, bred by Lord Braybrook, made 3 lbs. 6½ ozs. of butter in 24 hours. She is by "Old Port," whose dam, Maderia 3d, is a daughter of Wolseley, 401, J. H. B. The above test was made in the midst of all the usual bustle of a fair ground and under strict supervision. The cows of which there were 85 entered, were milked thoroughly dry at 6 P. M. by a committee appointed by the judges, the owners having nothing to do with them but simply to feed them. If a cow would make the above test under such conditions, what would she be capable of doing at home?

Champion and Grand Champion wherever shown.

Oxford Lad has demonstrated to the complete satisfaction of dairymen in general and of Jersey men in particular that he is a bull who has developed to an unprecedented degree the power to transmit dairy qualities of the highest order. The records of the Public Island Butter Tests for the past three years make interesting reading on this subject. During that time no less than fifteen of his daughters have been entered in twenty tests, five of them having been tested twice. They were all successful in obtaining a Certificate of Merit or higher award. The average yield for the fifteen cows was 1 lb. 13.6 ozs., produced from 31 lbs. 0.7 ozs. of milk, when 141 days in milk. Considering that many of these tests were made after their first calving, it is a marvelous record and said to be without equal.

He was bred by Mr. Wm. Labey (father of the great Fontaine family). We were told on the Island by the best judges that not in many years had they seen in the show ring such a magnificent bull as Mabel's Raleigh. Mr. W. R. Spann told us that Mabel's Raleigh would bring at a auction 15 to \$20,000. His tragic death was an irreparable loss to the Jersey world at large.

Not Bred

No. 61. Cow.

FERN'S MABEL OF GROUVILLE, 213979, A. J. C. C.

Bred by W. J. Labey, Grouville, Island of Jersey.
Born May 14th, 1906.
Imported October 8th, 1907, by T. S. Cooper & Sons.

Solid color; black tongue and switch.
Nice head, with large, prominent eyes, strong, straight back; splendid withers; broad hips, thin, long tail, beautifully set, with magnificent switch, wide and deep body; loose, mellow hide; udder of enormous size, with teats beautifully placed.

Out of the same dam as Mabel's Poet and should be a great acquisition to any herd.

Sire

MABEL'S

RALEIGH,

P. 3722, H. C.

1st prize over the Island, Aug., '05.

1st prize Grouville, May, '05.

1st over Jersey, May, '07.

He was bred by Mr. Wm. Labey (father of the great Fontaine family.) We were told on the Island by the best judges that not in many years had they seen in the showing such a magnificent bull as Mabel's Raleigh. Mr. W. R. Spann told us that Mabel's Raleigh would bring at auction 18 to \$20,000. His tragic death was an irreparable loss to the Jersey world at large.

Raleigh, P. 3723, H. C. 4th over Jersey, '03.
2d State's prize, '03.
Raleigh was bred by Mr. Wm. J. Labey, Grouville, Island of Jersey, the breeder and owner of the great Fontaine family. As a successful sire his chances are very bright. He has four crosses to Golden Lad, through Golden Fern's Lad, Orme and Boyle, and was imported and now in use in the valuable herd of Mr. Frank Hart, Cherryville, Ohio.

1st over Jersey, May, '07.

He was bred by Mr. Wm. Labey (father of the great Fontaine family). We were told on the Island by the best judges that not in many years had they seen in the show-ring such a magnificent bull as Mabel's Raleigh. Mr. W. R. Spann told us that Mabel's Raleigh would bring at auction 15 to \$20,000. His tragic death was an irreparable loss to the Jersey world at large.

SULTAN'S BEAUTY OF ST. SAVIOUR, 224602, A. J. C. C.

Bred by J. C. Godfray, St Saviour, Island of Jersey.
Born May 28th, 1906.
Imported October 6th, 1908, by T. S. Cooper & Sons.

Star; white on throat, breast, brisket, right shoulder, withers, stiles and flanks; spot on left hip; fore feet, tongue and switch white.

Bred in the very pink of fashion. A Sultan by looks and action, and we predict she will perform at the pail like a Sultane.

She is of great size, still very neat, nice head; large, prominent eyes; thin, long neck, long, strong, straight back; splendid withers, very broad hips; tail, thin and long, with magnificent switch, neat in bone; wide and very deep in body, loose, mellow hide; remarkable udder development, with large and beautifully-placed teats.

Sire

SULTAN OF OAKLANDS,

P. 3746, H. C.

Bred by Mr John A. Perree, "Oaklands," St Saviour, Island of Jersey.

1st prize winner over the Island, April, 1906.

1st prize, Sweepstakes, Breeder's Cup, and Reserve Champion, St. Saviour and Grouville Shows, '05.

Sultan of Oaklands was sold at the highest price ever paid on the Island for a bull. He is now owned, and stands at the head of the Penhurst herd, Netherth, Pa., owned by Mr. Percival Roberts.

Although the price was high, Island breeders lost more than ten times that amount by allowing the Sultan to leave the Island. His get in years to come will create a sensation.

At our '07 sale, six females sired by him none over 15 months old, averaged \$434.16.

Sultane's Snowdrop (the dam of Sultan of Oaklands) is a full sister to the famous cow, Golden Sultane, one of the main winners at the great World's Fair, held at St Louis

No. 65. Cow.

OXFORD PRINCESS OF ST. SAVIOUR, 224592, A. J. C. C.

(Reta, P. 11708, H. C.)

Bred by J. C. Godfray, St. Saviour, Island of Jer.
Born March 19th, 1904.
Imported Oct 6th, 1908, by T. S. Cooper & Sons.
Solid color, black tongue and switch.

We consider this cow one of the best of the Oxford Lad family. We bought her at very heavy cost, owing to her owner being unwilling to sell. We knew we ran risks, but we are convinced that she will add glory to our reputation as importers. Her dam has bred the best stock ever produced on the Island, and in the cow herself we see old Oxford Lass in duplicate. To those in want of a "corner stone," we say unhesitatingly "Bid Low."

She carries a lovely head, with large, prominent eyes; broad forehead, rich, amber horns; thin, long, ewe neck; grand wedge shaped body, being of great depth and width, splendid withers, straight back, very broad hips; thin, long tail, beautifully set, with magnificent switch. Thin, soft, mellow hide, magnificent udder, with good-sized and beautifully-placed teats.

Sire

OXFORD LAD,
P. 3123, H. C.

Oxford Lad has demonstrated to the complete satisfaction of dairymen in general and of Jersey-men in particular that he is a bull who has developed to an unprecedented degree the power to transmit dairy qualities of the highest order. The records of the Public Island Butter Tests for the past three years make interesting reading on this subject. During that time no less than fifteen of his daughters have been entered in twenty tests, five of them having been tested twice. They were all successful in obtaining a Certificate of Merit or higher award. The average yield for the fifteen cows was 1 lb 13 1/2 ozs., produced from 31 lbs 0 7/8 ozs. of milk, when 141 days in milk. Considering that many of these tests were made after their first calving, it is a marvellous record and said to be without equal.

1st State's prize over the Island, April, 1903.

Champion St. Saviour and Grouville Shows, 1905.

Oxford Lad has demonstrated to the complete satisfaction of dairymen in general and of Jersey men in particular that he is a bull who has developed to an unprecedented degree the power to transmit dairy qualities of the highest order. The records of the Public Island Butter Tests for the past three years make an interesting reading on this subject. During that time no less than fifteen of his daughters have been entered in twenty tests, five of them having been tested twice. They were all successful in obtaining a Certificate of Merit or higher award. The average yield for the fifteen cows was 1 lb. 13.6 ozs., produced from 31 lbs. 0.7 ozs. of milk, when 141 days in milk. Considering that many of these tests were made after their first calving, it is a marvelous record and said to be without equal.

No. 69. Cow. ANNIE LEE'S OXFORD LADY, 213938, A. J. C. C.
(Bessie Lee, P. 12094, H. C.)

Bred by E. C. Mourant, St. Saviour, Island of Jersey.

Born August 12th, 1904

Imported October 8th, 1907, by T. S. Cooper & Sons

Solid color, black tongue and switch. One of the most valuable cows in the herd. She is not only sired by a famous sire, but out of a producing dam, bred about as fashionable (for the charm and show ring) as any female we ever imported. She carries a lovely head, with large, prominent eyes, very rich colored horns, thin, long, ewe neck, long, strong, straight back, broad hips, thin, long tail, with magnificent switch; grand, wide and deep body; soft, mellow hide; grand udder, with good-sized and beautifully-placed teats.

No. 70. Cow. OXFORD BUTTERCUP OF ST. SAVIOUR, 213917, A. J. C. C.
(Oxford Buttercup, P. 10671, H. C.)
Full Sister to No. 69.

Bred by C. Mourant, St. Saviour, Island of Jersey.

Born October 13th, 1902

Imported October 8th, 1907, by T. S. Cooper & Sons

Spot on throat; white on withers, stiles and flanks, black and white tongue

Oxford Buttercup of St. Saviour, like her full sister, No. 69 above, is about as valuable a cow as we have in the herd. Being by so famous a sire as Oxford Lad, and out of the great producing dam, Mourant's Fontaine, one has good reason for expecting great results. Oxford Buttercup of St. Saviour is a beautiful cow of great dairy type. She carries a handsome head, with large, prominent eyes, rich-colored horns, long, strong, straight back; very broad hips; slim, long tail, with magnificent switch, skin thin and soft as a mole's, splendid body, beautiful udder, with good sized and beautifully-placed teats.

1st prize St. Saviour Show, '02.

Sweepstakes over St. Saviour and Grouville Shows, April, 1903.

1st State's prize over the Island, April, 1903.

Champion St. Saviour and Grouville Shows, 1905.

Oxford Lad has demonstrated to the complete satisfaction of dairymen in general and of Jersey men in particular that he is a bull who has developed to an unprecedented degree the power to transmit dairy qualities of the highest order. The records of the Public Island Butter Tests for the past three years make interesting reading on this subject. During that time no less than fifteen of his daughters have been entered in twenty tests, five of them having been tested twice. They were all successful in obtaining a Certificate of Merit or higher award. The average yield for the fifteen cows was 1 lb. 13 1/2 ozs., produced from 31 lbs 0 1/2 ozs. of milk when 141 days in milk. Considering that many of these tests were made after their first calving, it is a marvelous record and said to be without equal.

A. J. C. C., whose splendid breeding can be
seen on page B, front pages.

Bred by P. J. Priault, St. Peter, Island of Jersey.
Born April 21st, 1908.
Imported October 6th, 1908, by T. S. Cooper & Sons.

Solid color, black tongue and switch.
An exceedingly handsome young bull, beautiful head; rich amber horns, large, prominent eyes, thin neck, long, straight back, broad hips; tail, thin and long and beautifully set, thin, loose, midflow hide; body of good depth.

A bull that will add fame to any good herd.

Sire

NOBLE OF OAKLANDS,
P. 3909, H. C.

Bred and owned by Mr. John A. Perree, Oaklands, St. Saviour, Island of Jersey.

The most popular bull now on the Island. We have been informed by reliable parties that Mr. Perree has refused \$10,000 for him.

A fact worth mentioning about Noble of Oaklands is that he sired the first, second and third prize heifers at the Royal Show, Island of Jersey, Aug., '08, something that has never before been credited to any bull. That alone tells the tale of what can be expected of him, and his great popularity on the Island is evidence enough that breeders have great faith in his progeny.

Blue Belle's Blue Fox, P. 3633, H. C.

A very promising sire and great show bull. He was sold at Mr. D. S. Williams' sale, Nashville, Tenn., Dec., '07, to Mr. Harry Prentice, Worcester, Mass., for \$1,025, who was offered a large advance in price right after the sale.

He was shown at the Nashville, Tenn., show, Oct., '07, in a class where the Champion bull of the year was shown and Prof. Sewell, who had headed out the Champion ribbons at the show, was free in saying, "I had been judge at Nashville, Blue Belle's Blue Fox would have been Champion."

Lady Viola,

P. 8493, H. C.

The highest priced and most sensational cow now on the Island or in England.

She won 1st prize over Jersey, '04, won in Public Butter Test, May, '04, 2 lbs. 12 ozs.

C., sire of Fincial King, P. 2624, H. C., and Guenon's Lad, both noted sires. Dam of Blue Nym, P. 181's 5 1/2 ozs. Dam of Golden Lad's Blue Belle, sold in our May, 1903, sale for \$1,725. Dam of Blue Belle 6th and 7th and of Blue Belle's Handsome Fox. Also dam of Blue Belle's Golden Fern, 69199, that sold as a calf for \$3,000. Blue Belle has the distinction of being "courted" by the best breeders in England and America, among them lords and American millionaires, and the day she left the Island it was one of sorrow for those who loved her so well, as she had brought them many pounds sterling, not only for her offspring, but for her gilt-edged butter which sold weekly at the top price in the St. Helier market.

THE FAMOUS OLD COW, BROOKHILL ROSE 2d, P. 3440, C.

First Prize and Champion Winner over the Island, May, 1898.

Has milked as high as 28 quarts daily.

Dam of Golden Fern's Red Rose, 168625, that milked 12,290 lbs. in one year, and tested 23 lbs. 10 ozs. of butter in 7 days

Brookhill Rose 2d is also dam of Golden Fern's Rose Fern, 168517, who is dam of Rose Fern Rosebud, 159128, that sold for \$2,600. She milked in one year 12,503 lbs., 642 lbs. 11 ozs. estimated butter (Babeock) in one year. Golden Fern's Rose Fern is also dam of the sensational cow, Sultan's Black Beauty, sold in our May, 1907, sale for \$3,000.

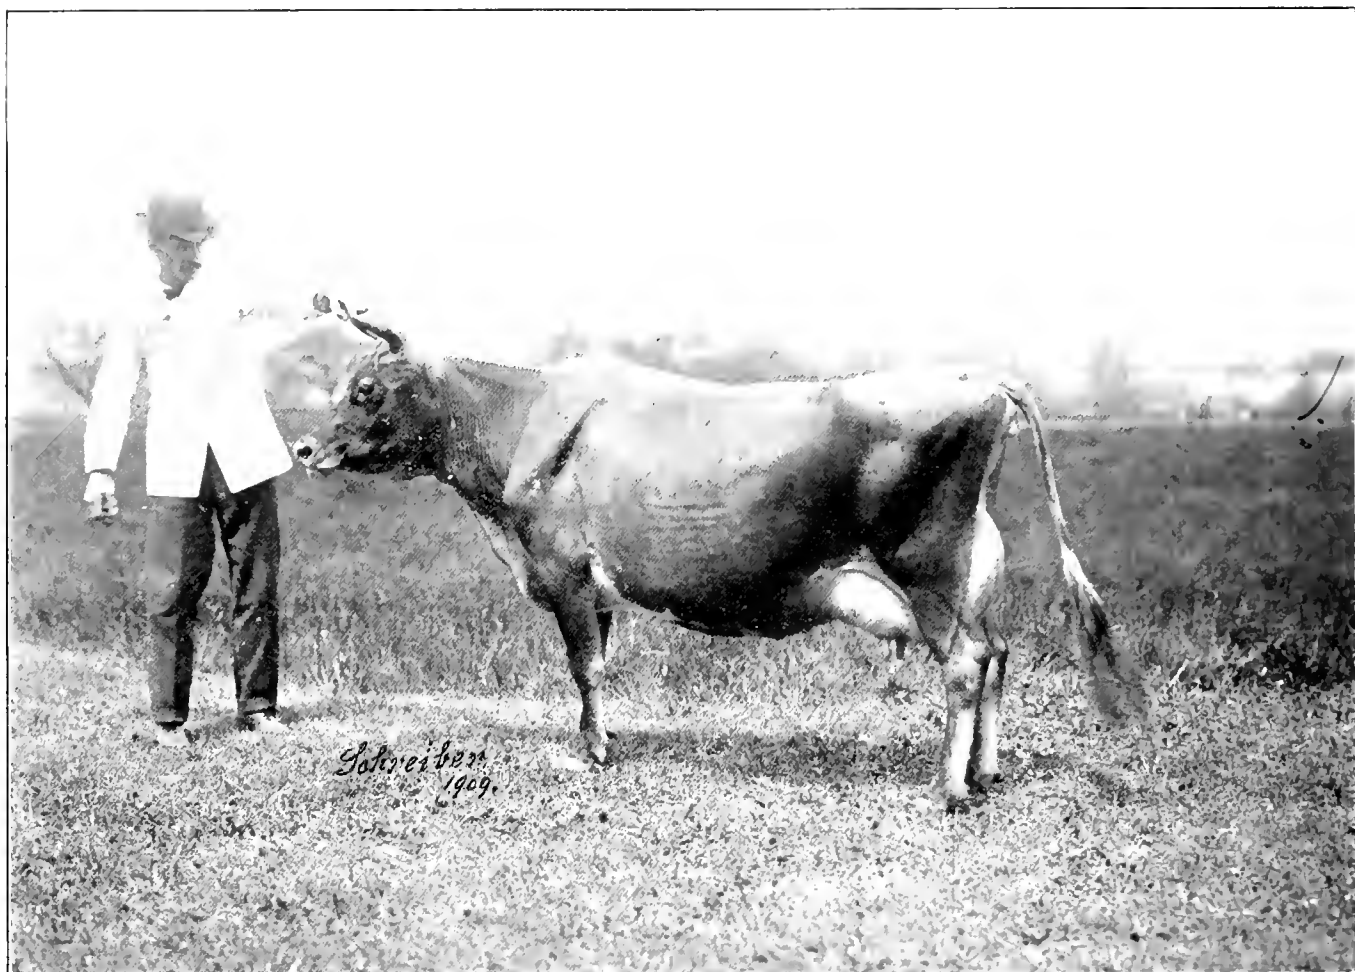

Brookhill Rose 2d is also dam of the sensational bull, Golden Jolly, P. 2921, H. C., noted as a great prize winner and for the superlative show and dairy qualities of his daughters. Golden Jolly is full brother to the two famous cows just mentioned, viz : Golden Fern's Red Rose and Golden Fern's Rose Fern. The following letter written by so good a judge as Dr. Linsley carries great weight :

To Jersey Bulletin :

Golden Jolly, 2921, J. H. B., has given indications through his progeny at recent shows and butter tests on the Island of being a superlatively prepotent sire in producing cows that combine the highest quality for both beauty and utility. No sire has ever equalled his record in the history of shows.

At the butter test, October, 1905, in Class I, for cows under five years of age, five of his progeny, four two years old, and one three years old, won awards. There were twenty-six awards in Class I. The second prize, a Bronze Medal, was won by Poppy Viola, 10902, two years old, 159 days in milk, yielding 27 lbs. in 24 hours ; butter, 1 lb. 15 ozs. ; 13.93 lbs. of milk to a pound of butter. The cow that won first prize was two years older. Jolly's Lass, 10505, three years old, 101 days in milk, yielded 1 lb. 15½ ozs. of butter from 28 lbs. of milk ; Jolly Maiden, 10946, two years old, 146 days in milk, yielded 1 lb. 8¼ ozs. of butter from 22 lbs. of milk ; Twylsh 9th, 10999, yielded 1 lb. 5 ozs of butter from 24 lbs. of milk, 153 days in milk ; and Jess, 10907, two years old, yielded 1 lb. 3¾ ozs. butter from 25 lbs. of milk, when 178 days in milk. I hope that Mr. Cooper may be able to secure the whole half dozen. What an exhibit that would make for one buyer.

Sire

**LUCY'S
CHAMPION,
P 3731, H. C.**

Reserve over Jersey, August, 1905. Sweepstakes winner, Western Shows, '06. Champion winner, Western Shows, April, 1907.

Is a son of the famous bull, "Oxford Lad," P. 3123, H. C., out of that great cow, "Lucy Belle," F. 8962, H. C., one of the best daughters ever sired by that great bull, Eminent 2nd.

Lucy's Champion was imported by us, and sold in our May, '08, auction sale to Mr. Harry Prentice, Worcester, Mass. Before shipment to America he won on the Island, sweepstakes at Western shows, April, 1906; champion at Western Shows, April, 1907.

In America he was First Champion and Grand Champion and headed the First Prize Herd at the great shows held at Worcester, Mass.; New York State Fair, held at Syracuse, Mass., and at Brockton, Mass., all in the fall of 1908. He certainly is a wonderful sire, and was rated by that veteran breeder, Mr. Francis LeBrocq, Island of Jersey, as the best bull they had in the Western Parishes for many years.

For full pedigree and picture of Lucy's Champion see page opposite No. 1.

NOT BRED.

JOLLY PRINCESS OF ST. PETER, 224587, A. J. C. C.

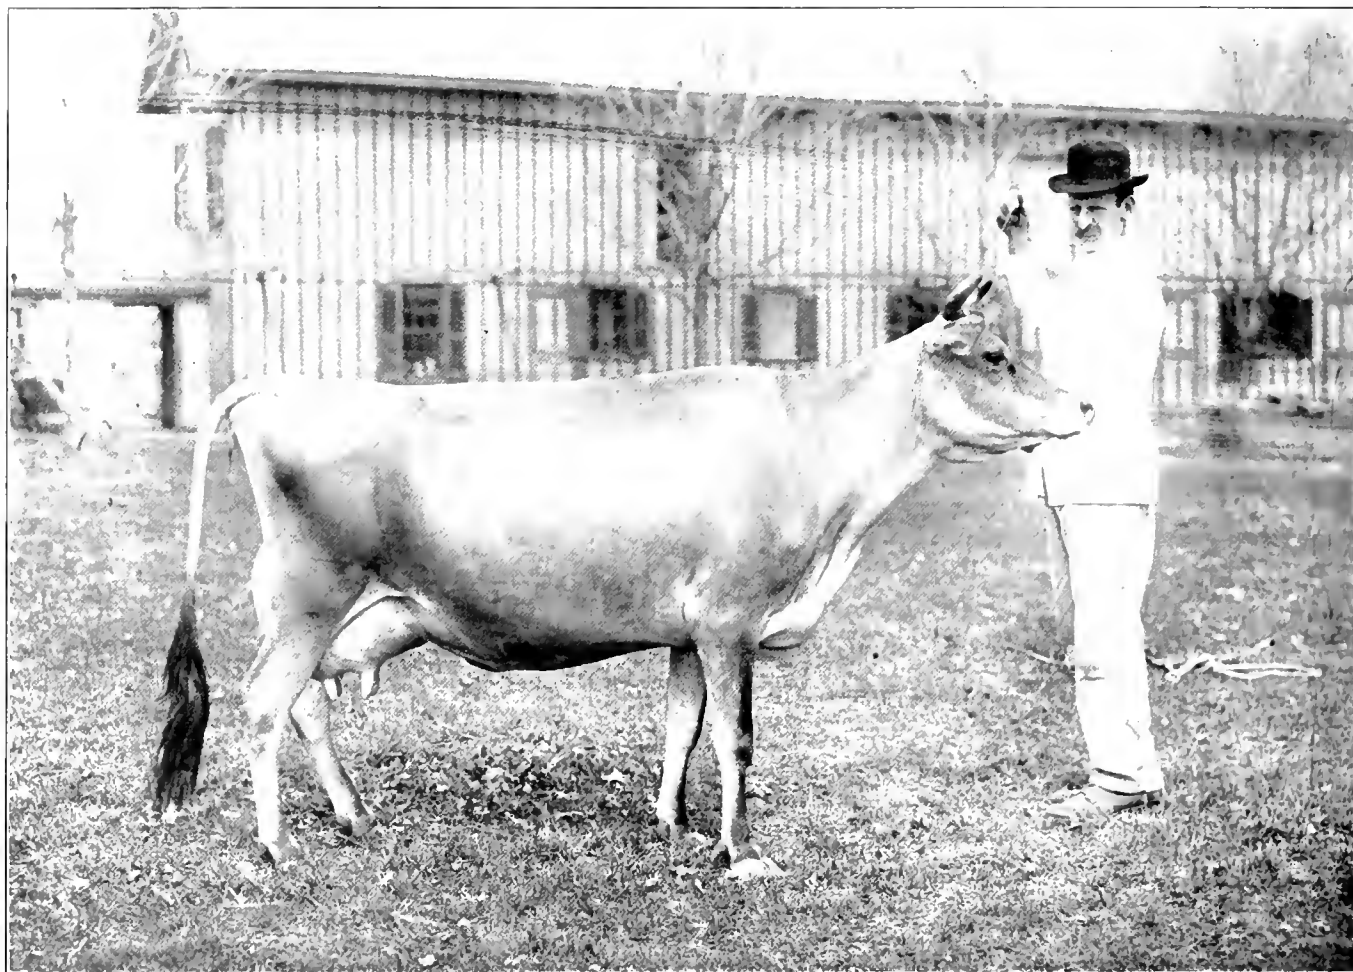

A Golden Jolly and a Good One.

A magnificent cow of great dairy quality, now milking 24 quarts daily.

She is sired by the great Golden Fern's Lad bull, Golden Jolly, P. 2921, H. C., winner of First Prize and Champion, North Show, 1900. He was a bull of splendid conformation, full of dairy quality, and has given indications through his progeny at recent shows and butter tests on the Island of being a superlatively prepotent sire in producing cows that combine the highest quality for both beauty and utility. No sire has ever equalled his record in the history of shows.

Amongst the famous prize-winning animals which he has sired is Jolly Lady of Beechwood, First Prize, Illinois State Fair, 1908 ; First prize, Champion, and Grand Champion, National Dairy Show, Chicago, 1908.

He also sired the four cows that won first prize for get of bull at the Illinois State Fair and the National Dairy Show, Chicago, 1908—all sold at our last year's sale.

JOLLY PRINCESS OF ST. OVEN, 224589, A. J. C. C.

A splendid daughter of Golden Jolly, P. 2921, H. C., First Prize and Champion, North Club Show, 1900.

He sired :

Poppy Viola, now named Golden Jolly's Lady Viola, 203669, A. J. C. C., who was imported by us in 1906 and re-bought by us at Mr. J. M. Overton's sale, 1908, for \$2,550. She is looked upon on the Island as having made the most phenomenal Public Butter Test, taking into consideration age and lactation, ever made—testing 1 lb. 15 ozs. in 24 hours, 159 days in milk and only 30 months old. She made a private test of 2 lbs. 9 ozs. in 24 hours. She is a full sister to our great butter bred bull, Viola's Golden Jolly. Jolly Lady of Beechwood, winner of First Prize, Illinois State Fair, '08. First Prize, Champion, and Grand Champion, National Dairy Show, Chicago, '08. He also sired the four cows that won First Prize for get of bull, Illinois State Fair and National Dairy Show, Chicago, '08.

Jolly Princess of St. Oven was bred April 18th, 1909 to Sultana's Oxford Lad, 76506, A. J. C. C., a son of the famous bull, Oxford Lad, P. 3123, H. C., out of Golden Sultana, one of the World's Fair (St. Louis) winners and the greatest living representative of Sultane, P. 7, H. C.

No. 84. Cow.

THE OWL'S LADY OF GROUVILLE, 213934, A. J. C. C.

(La Fontaine's Favorite 4th, P. 11496, H. C.)

Bred by T. P. Labey, Grouville, Island of Jersey.
Born May 9th, 1904.
Imported October 8th, 1907, by T. S. Cooper & Sons.

Solid color, black tongue and switch.

A grand individual of lofty carriage; handsome head, large, prominent eyes, thin, long neck, long, straight back, splendid withers; broad hips, thin, long tail, beautifully set; wide and deep body; soft, mellow hide, magnificent udder, with good-sized and beautifully placed teats.

No. 88. Cow.

STOCKWELL'S PRETTY BELLE, 224604, A. J. C. C.

Bred by W. J. Mallet, St. Lawrence, Island of Jersey.
Born September 18th, 1906.
Imported October 6th, 1908, by T. S. Cooper & Sons.

Solid color, except little white on belly, black and white tongue; black switch.

A Stockwell, and a good one, beautiful head of lofty carriage; large, prominent eyes, rich, amber horns, thin, long neck; strong, straight back, very broad hips, best of loins; tail thin and long, with magnificent switch, beautifully set, grand, wedge-shaped body of remarkable depth and width, skin, thin and soft as a mole's; a superb udder, with good sized and beautifully-placed teats.

Sire

STOCKWELL,

P. 3550, H. C.

Sold at our May, '07, auction sale for \$11,500 to Hon. A. B. Lewis, Fredericksburg, Va. He is without a doubt the grandest show bull that has been seen on exhibition for years, this was the opinion expressed at the Chicago National Dairy Show, October, '07, by at least 80 per cent of the best Jersey breeders in the country.

He comes from a family to which we have pinned our faith for many years.

He inherits from his illustrious dam and sire dairy qualities of untold merit. His heifers that have come to milk on their first calving, have surprised us beyond belief, so much so, that they rob themselves and put too much in the pail.

Due to calve September 9th, 1909, by Sultane's Oxford Lad, 76506, A. J. C. C., a shining star in the "Linden Grove" Herd. His magnificent breeding can be seen on page C, front pages.

T. S. COOPER & SONS' AUCTION SALE OF JERSEY CATTLE, MAY 31, 1909.

No. 90. Bull.

STOCKWELL'S FERN RIOTER, 84542, A. J. C. C.

Bred by T. S. Cooper & Sons.
Born June 3rd, 1908.
Solid color, black tongue and switch.
A very handsome young bull; nice head of lofty carriage; thin neck; straight back; broad hips; tail well set; very thin, loose, mellow hide; great depth of body.

Sire

STOCKWELL,
P. 3550, H. C.

Sold at our May, '07, auction sale for \$11,500 to Hon. A. B. Lewis, Fredericksburg, Va. He is without a doubt the grandest show bull that has been seen on exhibition for years; this was the opinion expressed at the Chicago National Dairy Show, October, '07, by at least 80 per cent. of the best Jersey breeders in the country.

He comes from a family to which we have pinned our faith for many years.

He inherits from his illustrious dam and sire dairy qualities of untold merit.

His heifers, that have come to milk on their first calving, have surprised us beyond belief, so much so, that they put themselves and put too much in the pail.

Matilda 5th, 21 lbs. 6 1/2 ozs. (for J. H. Walker)

Phillis is the only cow that ever beat Coomassie in the show ring. Her owner, Mr. Thomas De Gruchy, told us that she gave from 18 to 20 quarts of milk daily, and continued to yield heavily right up along to the next calving. She was never tested for butter, but was known to be a heavy producer, a fact that might have been easily credited by all who knew her, judging from her proportions. Apart from her grand dairy qualities and success in the Island show rings, she was noted as being the dam of Pilot, 183, that sired Oxford Kate, 13646, 39 lbs. 12 ozs.; for Committee of the A. J. C. C.; Pilot's Veronica, 18917, 20 lbs. 2 ozs.; Pilot's Rose, 17958, 18 lbs. 3 1/2 ozs.; Pauchon 2d, 18200, 14 lbs. 9 ozs.; and Khedive's Primrose, who sold for \$5,150 at our auction sale, May, '83.

(Devonia, P. 3410, H. C.)

THIRD OVER JERSEY IN A CLASS OF 56, AUGUST, 1908.

Bred by N. A. Le Quesne, Trinity, Island of Jersey.

Born February 7th, 1906.

Imported October 6th, 1908, by T. S. Cooper & Sons.

Star on forehead, white on right shoulder and withers, tongue and switch white.

One of the handsomest young cows in the herd. She is by the noted sire, Oxford Lad, and out of a highly commended cow, La Belle Maria. She carries a lovely head, rich colored horns, large, prominent eyes, broad forehead, dished face, long neck, strong, straight back, with splendid loins and withers, body of great depth and width, neat in bone, very thin, loose, mellow hide; tail thin and long, beautifully set, with magnificent switch, grand udder of splendid proportions, teats of good size and beautifully placed.

A great show cow.

Sire

GOLDEN FERN'S LAD, P. 2160, H. C.

1st and Champion at N. C. Show, '96, '97. For a number of years the blood of Golden Fern's Lad has dominated the show and sale rings. The climax was reached last year, when every winning of any consequence, at all the principal Fairs of America, England, and the Island was made by a son or a daughter, or a near descendant of Golden Fern's Lad. The record price at auction (\$11,500) was made for a grandson of Golden Fern's Lad and an eight months old bull calf by him brought \$10,200.

At the National Dairy Show, Chicago, '07, the grand champion and junior champion females were daughters of Golden Fern's Lad and the Grand Champion bull was a grandson, and out of a granddaughter of Golden Fern's Lad. The four prizes for bull and get (the most important of all prizes) all went to Golden Fern's Lad and his close descendants.

FONTAINE'S OXFORD BELLE, 180250. (FANFARE, F. 9385, H. C.)

A remarkably good dairy cow by a great sire and out of a great cow.

There is quite a story connected with the sale of Fontaine's Oxford Belle, sold at our May, '04, sale to Hon. A. M. Bowman for \$435. She was dry at the time of sale, and one of the bargains that are often picked up at our sales. During the latter end of July we attended the sale of the late Mr. Berry in Lexington, Ky., and on our way home stopped off for our first time to see the owner of Bowman Farms. Soon after we got there we happened to look up on a hillside and could see a cow with some heifers. We asked Mr. Bowman if he was not afraid a cow so heavy in calf might be injured on such a hill, as the heifers were playing along the hillside. He thought there was no risk, but when I discovered that the cow was Fontaine's Oxford Belle, I told Mr. Bowman that I believed that he did not think as much of that cow as what I did, and before I left I offered him \$2,000 for the cow.

P. 3746, H. C.
Bred by Mr. John A. Perce, "Oaklands," St. Saviour, Island of Jersey.
1st prize winner over the Island, April, 1906.
1st prize, Sweepstakes, Breeder's Cup, and Reserve Champion, St. Saviour and Grouville Shows, 1905.
Sultan of Oaklands was sold at the highest price ever paid on the Island for a bull. He is now owned, and stands at the head of the Penhurst herd, Narberth, Pa., owned by Mr. Percival Roberts. Although the price was high, Island breeders lost more than ten times that amount by allowing the Sultan to leave the Island. His get in years to come will create a sensation. At our 1907 sale, six females sired by him, none over 15 months old, averaged \$434 16.
Sultane's Snowdrop (the dam of Sultan of Oaklands) is a full sister to the famous cow, Golden Sultana, one of the main winners at the great World's Fair, held at St. Louis. She sold at our auction sale as a two-year-old for \$1,600; at the World's Fair she sold for \$2,350; and within the last ten months she and her bull calf by Oxford Lad have been repurchased for the "Linden Grove." Herd at \$4,025. "Blood will tell."

Sold at our May, '07, auction sale for \$11,500 to Hon. A. B. Lewis, Fredericksburg, Va. He is without a doubt the grandest show bull that has been seen on exhibition for years; this was the opinion expressed at the Chicago National Dairy Show, 1907, by at least 80 per cent of the best Jersey breeders in the country.

He comes from a family to which we have pinned our faith for many years.

He inherits from his illustrious dam and sire, dairy qualities of untold merit.

His heifers, that have come to milk on their first calving, have surprised us beyond belief, so much so, that they rob themselves and put too much in the pail.
